Jeff O'Heir

Cauldron Staff

People watching. That's what we did on the sunny afternoons. We sat and scoped out the opposite sex or read or tossed around footballs and shot the breeze. Quad days were like that, problem was there weren't enough of them. But we sure enjoyed the ones we had.

GETTING NOWHERE

Third time this week Columbus lot was full before nine. By the time I got to Hayden, I was purged again and now I'm waitlisted. I don't need this, I really don't. The bookstore was out of Lit books and Professor Staff just smiled. Sure, count me in. I'm here. I'm here.

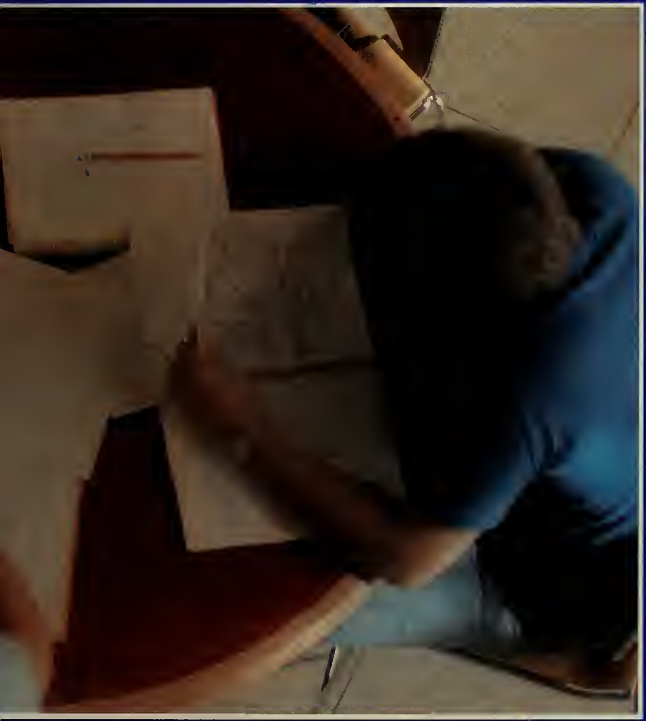
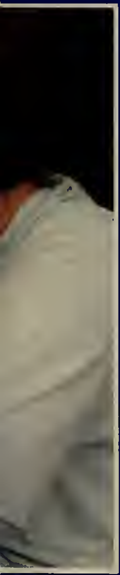
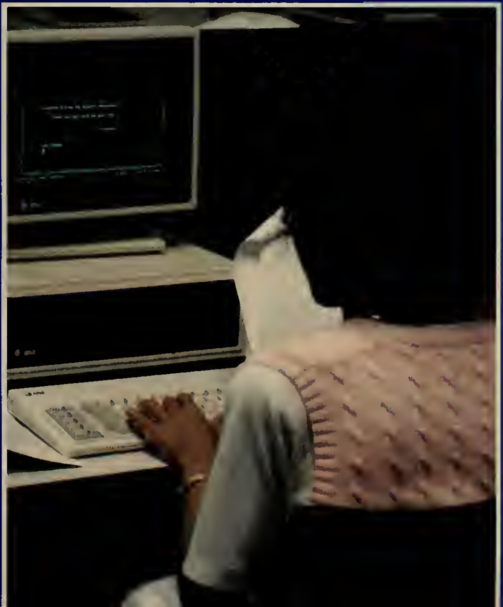
Is it really half over now? [illegible] homework yet. I can't believe [illegible] I can't [illegible] for all [illegible] Next quarter will be [illegible] the reading of [illegible] I can't believe [illegible]

GETTING TIRED







GETTING THERE

This is the last time I schedule back to back classes in the afternoon! I should be getting an activity credit for running from Ruggles to Cahners in 10 minutes. I should be hanging out in the quad, enjoying the afternoon, I should be sleeping in the sun. I should be eating. I should be . . . I should be in class now, I'm three minutes late.

GETTING INVOLVED

My friend John wanted to join the club and he bugged me to go with him. Really I'm too busy. I didn't come here for the activities. That was three years ago. John's off at UMASS, but I stayed in the club because I liked the people. If we hang together Northeastern can't spit us out piece by piece.

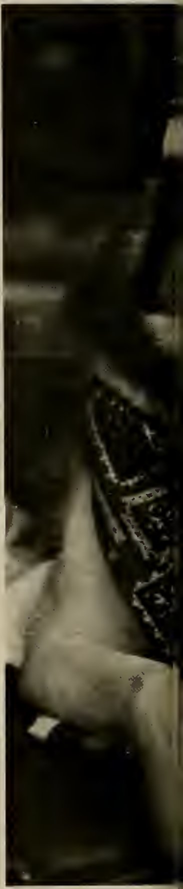
A SIDEHILL GOUGER?

By 1927, it was getting darned embarrassing. Northeastern had grown to more than 5,000 students and was preparing to field sports teams, yet there was no mascot.

The administration wanted a dog — no irony there — and the students were partial toward the bee, the pig or the sidehill gouger. Since there were few gougers to be had, a champion Alaskan sled dog was procured.

King Husky I was a spirited sort, coming to NU with a rap sheet that included the untimely demise of nine turkeys, 31 chickens, a sheep, and several rabbits. But he showed his fortitude by weathering a wet welcoming parade and a tomato pelting by some friendly Terriers from B.U. He was given two honorary degrees to mark the day.



Since then there have been seven successors to the noble first King Husky. One of the most memorable was King Husky V, who showed his displeasure with a negative Beanpot outcome by wandering onto the ice and leaving a little something for the opposing team to consider. Long live the King!

HEASTERN
NU
HUSKIES

NU's edifice complex

It is not true that Northeastern was designed by a blind engineer with a T-Square. It is also not true that the reason the campus looks so uniform is that the builders of the university simply left the buildings in the boxes they came in. It may surprise a lot of Northeastern students but there is a reason most of the buildings look the way they do.

It all started with the fact that there was a university before there was a campus.

Northeastern was formed as an evening education program at the main Boston location for the YMCA on Boylston Street. In 1896, there were part-time courses in law, electricity, architecture and something entirely new for the time, automobile mechanics. The practicality of the program, as opposed to the liberal arts education of nearby Harvard and Boston University, eventually led to the development of the vaunted co-op system in 1909.

Classes continued to be conducted at the YMCA until a fire destroyed the building in 1910. Classes continued at other locations until the mammoth YMCA building on Huntington Avenue was built in 1912.

In 1916, the evening program became Northeastern College and started offering daytime courses in mathematics, physics, chemistry, English, economics and management. In 1917, the college was given permission to grant bachelor's degrees.

By 1922, the college had become a university and had

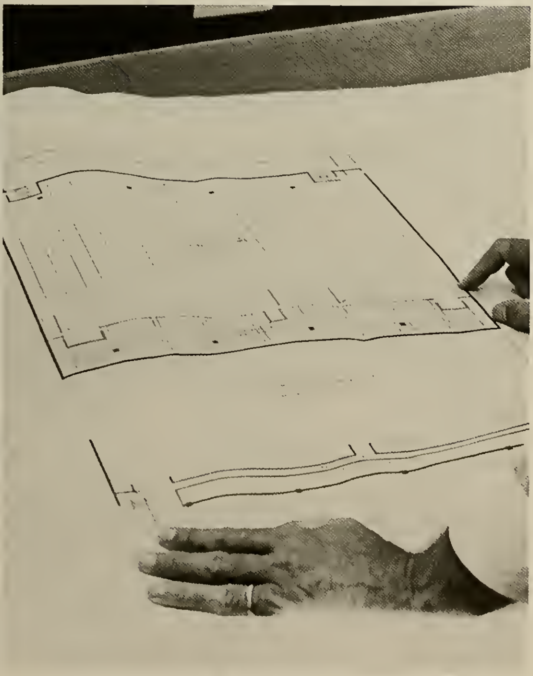
f looks like this today.



A recreation center that may be built, don't hold your breath.

Continued from Page 20

outgrown the YMCA building and some rented space across Huntington Avenue. Campus officials began eyeing some vacant property next door on Huntington Avenue. The property had been vacant since a railway stockyard had closed, in 1903 it had served as the site of the first World Series game, between Boston and Pittsburgh.

The university held a design competition and the prominent local firm of Coolidge, Shepley, Bullfinch and Abbott was given the contract. The company attempted to meld two distinct styles in its campus designs. The first was the Beaux Arts school which inspired such buildings as the main hall at MIT and the Museum of Fine Arts. The other school of architectural thought involved was the Bauhaus European school of utilitarian, interconnected design. The resulting conglomeration was the unique white brick, four story vocabulary that has followed Northeastern to the present day.

The first building put was Richards Hall in 1938. A short time later, Science Hall, now part of Mugar, was built. The Botolph Building, now Cullinane, was purchased shortly before the outbreak of World War II, as was Parsons Field in Brookline.

Northeastern experienced a boom after the war and the Ell Building (in 1947) and Dodge Library (in 1952) were built to meet it. Several more acres of land were purchased for parking and the Greenleaf and Forsythe Buildings were also purchased.

In 1954, Cabot Gym was built, followed by Hayden Hall in 1956. The White Brick architectural

Continued on Page 22

Continued from Page 21

beat continued on.

In 1963, the Mugar Building was built followed quickly by Speare Hall in 1964. In 1965, there was the first break in the white brick facade when the Ell Student Center addition to the Ell Building was built. But in 1966, the white brick was reinforced when Robinson Hall, Churchill Hall and Stetson Hall were built. White Hall, Light Hall, Smith Hall and Melvin Hall were all added to the campus that year.

The next year Dana Hall was completed and in 1968 Docksor Hall was built.

The decade where Northeastern built to a climax was completed with Barletta Natatorium (1969), Knowles Center (1969), and Hurtig Hall (1969).

But the 1970s were also a tribute to Northeastern's edifice complex. Gryzmish Hall went up in 1970. Volpe Hall was built in 1972, Cahners in 1974, Kerr Hall in 1975 and Stearns in 1977. But the white brick vocabulary had begun to wear thin and Northeastern knew it.

When the United Realty property (now Lake, Nightingale, Holmes and Merserve) was purchased in the 1950s it had been scheduled for destruction and replacement by new white brick buildings and a football stadium, but the new buildings had been delayed. By the late 1970s it was apparent that the design of the property should be saved for architectural history reasons and the so-called Red Brick campus was born.

With the construction of West Apartments, architects learned that they had to give

Continued on Page 23

SNELL ENGINEERING CENTER

Snell Building breaks the white brick tradition

Building to a Climax

Editor's Note: The following was written by a Northeastern student in 1971. It was called "Building to a Climax" and, we still feel, says a lot about Northeastern and its edifice complex.

"That will be all, Richards," said the Lady Botolph. The butler bade them good evening and closed the door as he left. The Lady Botolph lipped a sip of chocolate from her cup and smiled with interest. Leon Dana Churchill stood and walked towards her, staring down. She looked up into his dark, emotionless features, betrayed only by a slight flaring of nostrils.

"You know what I want," he said flatly.

A shadow, part of fear and part joy, clouded her pale, thin and hungry features. She said nothing.

"Does the Lady know the gentleman wishes to Parker?"

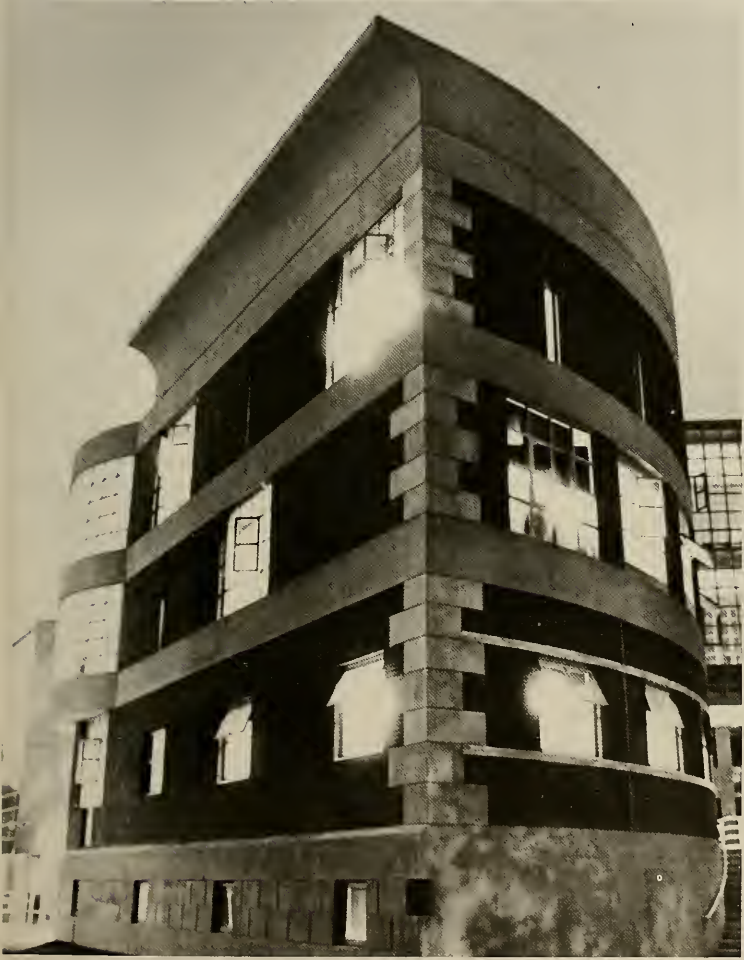
The Lady Botolph placed her cup of chocolate on the end table and leaned forward in her seat. Her agile fingers parted easily the folds of woolen cloth which stood between her and her goal, but fumbled on the silk within. His hands flashed down to aid her release of the engorged captive. Her eyes widened in incredulous disbelief. There it stood. His Cabot. A true Stetson, nearly an Ell long. Never in her wildest dreams had she imagined such a Speare.

Suddenly, he picked her up in his strong arms and threw her upon the couch. In an instant his hands were within her Greenleaf sheath, upon her Forsythe, probing the soft liquid pool of her Barletta Natatorium. He lowered his face, began to Mugar, and she writhed under the Forsythe Dental and lingual attentions. Quickly he stopped. "Turn over," he said. "I want it the Hemenway."

She tried to Dodge, but was powerless. Placing a Cushing under her, he lifted her Forsythe Annex. Keeping his hands firmly upon her, he thrust his Hayden deep into her Knowles. She screamed and cried out, "You're Hurtig me, you're Hurtig me!" But after a few minutes she lost her will in the Gryzmish of their United Realty.

Suddenly, from the doorway, a watching Richards shouted, "That's the way to Docksor, Mr. Churchill. Ha, ha, Leon, acDuff and damned be he that first shall cry, hold enough." — **Don Leamy.**

White brick dorms as far as the eye can see.



Kariotis Hall, a strange combination of the Red and White brick styles.

continued from page 22

more thought to the aesthetics of the campus and not just mix and match. The first building to reflect the new sensibility was Cargill Hall and the law school. It was built around an underground mall and used little of the white brick — quarried specifically for NU in Vermont — that had dominated the other buildings. The next major project was Kariotis Hall which split the border between the Red Brick and White Brick campuses and was built as a strange combination of the two in 1981.

In 1984, the Snell Engineering Building was built as a departure from the other White Brick buildings around it.

With the construction of a new library scheduled to start in the next year (how many times have we heard that before), Northeastern campus design will take another step away from the traditional white brick style. The new library will probably be five stories high and will contain some design elements from both the Ell Center and Snell, neither of which are direct copies of the White Brick, Bauhaus-Beaux Arts style. Still, Northeastern's design scheme is a unique one that is easily recognizable, even if most students consider it too utilitarian. In the next several years, most of the concrete quads are slated to be replaced with green space and some bricks as Northeastern attempts to soften its appearance. It's enough to make one wonder if a future student looking back through old yearbooks will smile at the quaint old four-story, white brick vocabulary as a relic of the past, rather than the dominating feature of Northeastern as we knew it.

Ishka, pishka,
Hit him in the kishka,

Stand on your head
Stand on your feet,
Huskies, Huskies,
Can't be beat.
Go Huskies, Rah!

GPA

Not in our neighborhood, See QPA.

GREEN LINE

1. Definitely an E ticket ride. 2. A trolley car that, after leaving NU, dives deep into the bowels of Boston only to surface somewhere in Italy. 3. Not for the squeamish.

GRYZMISH

A building of unpronounceable proportions.

POLICE
NORTHEASTERN UNIVERSITY

HOLOGRAM

See President Ryder, we dare you.

HUSKIES

A nearby sports bar that has nothing to do with NU but does a brisk business trading on the apparent association.

HUSKY 5-0

1. The protectors of the campus, guaranteed to walk softly and carry a big ego, even if they only seem to carry it as far as Herrell's Ice Cream or the Boston House of Pizza. 3. A group that spends an inordinate amount of time in Huntington Liquors. 3. Whom not to call if you are in an emergency situation.

HUNTINGTON VICE

1. Husky 5-0 types who disguise themselves as lampposts in order to catch students in the act of doing anything illegal. The aviator shades around the lights are a dead giveway.

H

I

ICE CREAM

The neatest thing to get in a care package from home.

IMPERMANENCE

The only known quantity in a dorm romance.

ID

1. They give proctors a reason to live. 2. There is a prominent collection at Huntington Liquors. 3. Comes in many forms — drivers, school, liquor — but the one most students seem to have is "fake." 4. Often used after a late party to inform the bearer of his or her name, age and address.

J

JUMPING JACK FLASH

1. Currently a parking lot, it was once a well-known den of iniquity frequented by NUers willing to brave the Fens at night.

JANITORS

The extremely well-mannered types who have replaced Mom as the one to clean up the messes you left behind.

30
3

It could have been worse, some people thought the mascot should be a chimp.

KNOWLES, ASA S.

Northeastern's third president. He wouldn't have liked this glossary either.

L

LAME HEALTH CENTER

1. A great place to visit but we wouldn't want to be sick there. 2. A place where probing, poking, poisoning and prying is required even for taping an ankle.

LOGO-NOGO

See Nogo. Where's the U?

LINES

If you don't run into one of these when you go somewhere on campus, you're obviously in the wrong place.

MAXWELL JUMP'S
Dance & Deli

M

MAXWELL'S

A cleaned up Cask, but not bad after a year down the tube.

MONDAY SCHEDULE

See Friday classes.

MONEY

You can spend what you don't have.

MARRIAGE

Come on, be serious. Let's just live together for a few decades.

MIDDLER

1. The academic black hole of Northeastern. 2. The third year in a five year system. 3. The anti-year. 4. The year academia forgot. 5. What freshman males always claim to be. 6. Something David Letterman doesn't understand. 7. No relation to Bette.

MIDTERMS

Arrrggghhh!

MOVING

An act in which you spend $2,000 (first, last, security, fee) to go from one rat hole to another.

MONO

With AIDS and Herpes around, it kind of makes this old campus favorite seem a little impotent, doesn't it?

MOTTO

Lux, Veritas, Virtus. Liberally translated to mean: I have money therefore Northeastern will accept me. Or in the case of new campus buildings: You pay for it, you can name it.

MOUNT RYDER

The grass hill in the middle of the quad from which much quadulating takes place. 2. A hill of spirited cohabitation. 3. Famed pitching mound for snowball wars. 4. A noun, not a command.

NORTHEASTERN UNIVERSITY
MARINE SCIENCE
INSTITUTE
EAST POINT, NAHANT

NAHANT

Northeastern's private beach club on the North Shore.

NO-OP

1. What faces Arts and Sciences students when they visit their co-op advisers.
2. Getting a job at Northeastern because no real employer would have you.

NOGO

Northeastern decided to spend thousands of dollars to give itself a new logo, but they forgot the U and now no-one wants to be seen sporting the famous "broken" N design.

NORTHEASTERN BRICK

What you throw through Northeastern windows.

NORTHEASTERN UNIVERSITY

A large factory that is masquerading as an institution of higher education.

NORTHWESTERN UNIVERSITY

The place that all of our friends back home think we went to.

O

OOPS

Nickname of chief surgeon at the Lame Health Center.

OXYMORONS

1. Campus public safety. 2. Academic advising. 3. Financial aid. 4. Work study. 5. Student government. 6. The Northeastern News. 7. A Northeastern Degree. 8. Dodge Library. 9. Jumbo shrimp.

ORANGE LINE

1. A brand new way to get to Northeastern from either the north or south. 2. Definitely, an E Ticket, E for earplugs. 3. A real "muggy" sort of place.

P

PARKING

Not on this campus, you don't.

PERSONALS

A neat way to meet the AFSWF of your dreams.

VIOLATION
USE QUARTERS ONLY

THIS
LOT FULL
NORTHEASTERN
UNIVERSITY
PRIVATE PROPERTY
NO TRESPASSING
PARKING

PLA

1. Parking lot attendant. 2. The keeper of the cars. 3. Always dressed in flourescent orange garb and holding a little red "lot is full" sign.

POLICY

The answer given by any administrator who is asked "why?"

Punter's Pub

PROCTOR

English proficiency not required. Sleeping optional, hassling a must.

PROCTOR PANIC

Occurs when student speaks to proctor in English. A humorous dance involving many proctors and Husky 5-0.

PROVOST

Chief academic officer at Northeastern (see oxymoron). Opposite of Antivost.

PUB RATS

A small group of hops swilling vermin who live and breathe Punter's Pub.

PUNTER'S PUB

1. Jock heaven. 2. Home of Pub Rats and deadheads of the toasted kind.

Q

QPA

You didn't really expect Northeastern to have a normal system of measuring academic achievement, did you?

QUADULATING

The act of sitting around the quad, wasting time and rating all the members of the opposite sex with your friends.

QUARTER SYSTEM

1. A schedule designed to fill up all the wasted time between co-op assignments. 2. An educational oxymoron.

QUAD

We first knew it as cement. Then it became asphalt and then brick and then grass. Soon it will be teflon, no doubt. Northeastern continues to try to "soften" it by dumping thousands of dollars onto it.

R

ROACH COACH

1. Breeds rapidly, can be found in dark corners of campus, selling left over food. 2. Commuter caffeine Connection. 3. Always a nickel ahead of the indoor soda machines.

RELIGION

Sadly enough, it only seems prominent on campus around the time of senior clearance.

RATHSKELLAR

Once the campus pub, now just a memory of well-tempered alcoholic haze. Run into the ground and then given to the students after the school canned the liquor license. Now, it's just a swell club to be in.

RA

1. Resident Asshole. 2. The second set of parents you acquire at Northeastern. 3. A job safety net for those young adults unable to function in the real world because they spent four years in a college dorm and liked it.

ROOMMATES

1. Someone who always knocks on the door just prior to penetration. 2. Someone who you either love or hate, but never forget. 3. Someone who always seems to catch viral meningitis or measles just before finals week. 4. Someone who can guarantee you straight A's if they would just agree to a swan dive off West Apartments.

RYDER, KENNETH G.

Northeastern's Fourth president. Reputed to be a computer generated hologram. Probably hasn't been programmed to know about this glossary.

ROACH MOTEL

1. Not to be confused with the place the school boards the football team prior to each home game. 2. A small rectangular box full of stickum and vermin, not at all unlike an average dorm room.

SPEARE, FRANK PALMER

First Northeastern president. Probably would have approved this glossary because he must have had a sense of humor, he helped found this university.

STEVE'S

You scream, I scream, we all scream for ice cream.

SOUTHEAST DISTRESSWAY

1. Place to park your car when trying to reach NU in the a.m. 2. Best reason to use the T.

STAFF

Most famous and ubiquitous professor on campus. 2. Teaches at least 50 classes each quarter. 3. Able to leap tall TCEs in a single bound.

CLASS OF 1988

The office of the Dean of Administration reported on September 9, 1983 that the Class of 1988 had two men for every one woman. Why did the 1983 entering class have less women than in years past? The reason for the sudden decline in female enrollment occurred due to a rapid decline in the enrollment in the College of Education. Historically, women had dominated the field of education, but because of the rapid decline in the job market in 1983, fewer people majored in education and fewer females enrolled at Northeastern.

Of the 3800 freshmen enrolled at Northeastern, the largest percentage of them were engineering and business students. Out of the approximately 1,140 registered freshman engineering students, 91 of them were women. About 560 freshmen would major in Arts and Sciences, 130 in Physical Therapy, 440 in the Freshman Alternative Program, 1,300 in the Business Administration Program and the remaining balance in Criminal Justice and Computer Science. In all, Northeastern received 13,371 applications for the fall quarter of 1983.

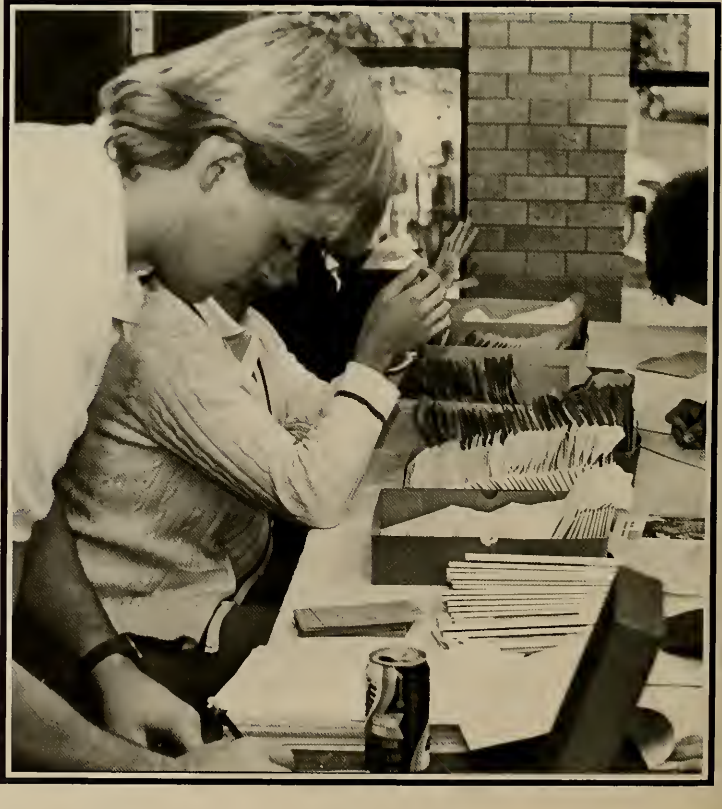
OVERBOOKED

(No Room At The Inn)

Two hundred students found themselves living in everything from alcoves in the Y.M.C.A. to cots set up for them in West Apartments when the housing office overbooked the dorms for the fall quarter of 1983.

The problem of overbooking began when the university found as many as 300 unoccupied dorm rooms in the fall of 1982. In projecting the number of deposits to accept for the fall of 1983, administrators tried to compensate for the previous year's underestimation, but made a gross misjudgment.

The University administration decided to give a credit of $15 per week to "hosts" who had to have temps living in their quarters. One way the university was able to find permanent housing for students living on cots was to convert floor lounges, staff offices and pool rooms into permanent spaces.



BURGER KING

BURGER KING COMMETH

A final agreement was worked out between Northeastern and the Burger King Corporation for the July 1, 1983 construction of the fast food outlet in the Ell Center cafeteria. The $500,000 Burger King had to pass the approval of the Student Government Association's Student Center Committee before it could open for business.

In 1980, the University began looking for alternatives to the D.A.K.A. food service deli in the student cafe. Burger King won the final approval of students and provided commuters with a "fast food" solution. The fast food restaurant opened in the fall quarter of 1983. Besides being a source of fast food, Burger King also provides a part-time employment resource to the university community: they employ approximately 60 to 80 part-time students each quarter.

VAPPI

SNELL COMPLETION

Northeastern opened it's new Engineering Center on August 15, 1983. The new five story complex connects to the Charles A. Dana Research Center, housing all five departments of the College of Engineering together under one roof for the first time in N.U. history.

The 1983 Engineering Center accommodates the college's 10,000 engineering and engineering technology students enrolled in day and evening classes.

The new Engineering Center has 81,000 gross square feet, with 30 laboratories, five classrooms, two lecture halls, computer facilities, and 107 administrative offices for the College of Engineering and Lincoln College. Financing for the 8.5 million dollar project was raised by Northeastern's Century Fund.

GRENADA INVASION

On the morning of October 25, 1983, American troops and armed forces from several Caribbean nations invaded the small island of Grenada. Most of the world was in awe as the U.S. Marines stormed the island's small Pearls Airport at dawn.

The combined nations successfully gained control of the facilities with the help of Army Air Rangers. They parachuted onto the main runway of the new international airport which was being constructed at Point Salines. Under heavy fire, the Rangers were able to gain control of the small airport and secure it two hours after landing on the runway.

President Reagan announced that the invasion was necessary to deter the growing chaos on the island as a direct result of communist activities. The majority of citizens of Grenada welcomed the U.S. armed forces who came to restore order to their homeland.

MARINE MASSACRE

On an early mid-October morning, U.S. Marines and other members of the peace-keeping force were asleep in their barracks. A lone suicidal truck driver who belonged to a fanatical Islamic group crashed through concrete barriers surrounding the complex. Unhindered by guards firing at the truck, the Islamic driver crashed his truck filled with explosives into the barracks, leaving some 240 Americans dead and countless others buried. Many of the dead were not found until the rubble and debris could be cleared hours later.

News of the terrorist attack reached the United States on the following Sunday morning. President Reagan went on national television to take full responsibility for the death of the Marines, as people wondered how our "boys" could have been caught by surprise.

RUSSIANS DOWN CIVILIAN AIRCRAFT

On Wednesday, September 7, 1983, Korean Airlines Flight 007 was shot down by Soviet aircraft near Sakhalin Island off the coast of the U.S.S.R. The jet crashed into the Sea of Japan with 269 passengers and crew aboard; 61 of them were Americans.

Initial reports from the Soviet Union stated that the aircraft entered their airspace. They stated that they had given multiple warnings for the jet to leave their airspace and even attempted to lead it back into open territory.

An investigation following the crash led to the conclusion that the KAL007 flight was about 230 miles off its appropriate course. The KAL007 pilot had reported a position of 115 miles south of the island of Hokkaido when they were actually 115 miles north of the site. Soviet officials logged claims of covert espionage action against the flight, insinuating that there was photographing of Soviet military installations from the civilian aircraft. The U.S.S.R. made claims that it was merely defending itself from a plot by the United States Government to use civilian aircraft for spying missions, and that they were to blame for the incident. These charges were never substantiated.

The aircraft approached the sea and broke upon contact with the rough, cold waters. During the next two days, Russian ships and planes combed the surrounding area, wreckage, and bodies, but little was found. Gradually, bits and pieces of the airplane washed up on Japanese shores. Passengers' belongings, a wing section, and other pieces of the airplane were found there. No flight recorder was ever recovered from the wreckage, preventing any conclusive investigation of the tragic accident.

One American killed in the accident was Georgia Congressman Lawrence P. McDonald, a strong anti-communist advocate and national chairman of the Birch Society. After the crash his wife Kathy claimed that it was a deliberate attempt to assassinate her husband. She believed that the plane had been forced into Russian airspace. She later ran for her husband's seat to continue his work, but failed to win enough support.

At the time, the U.S.S.R. was publicly chastised for the apparently unprovoked aggressions against the civilian aircraft by world leaders, but this was a cold comfort to the passengers' families and loved ones.

Curry Appointed Vice President

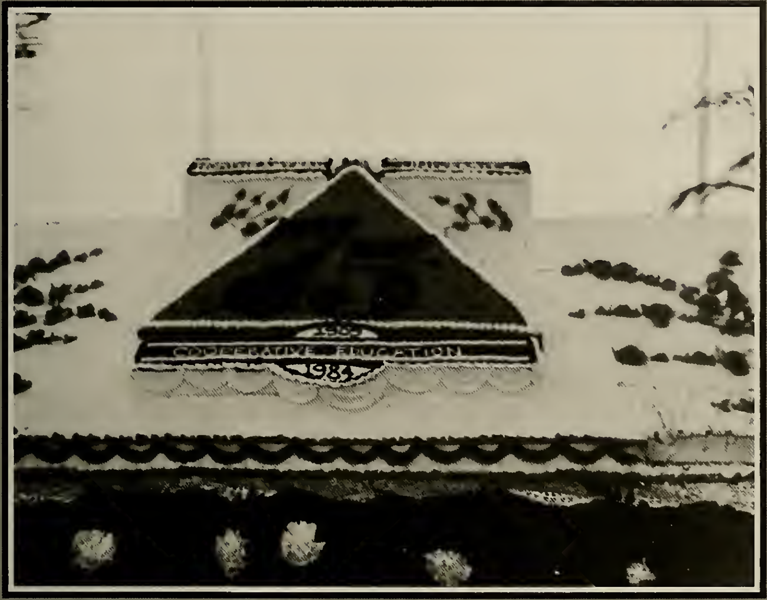
On March 23, 1984 the Northeastern Board of Trustees appointed John A. Curry as executive vice president. Curry received three of his four degrees at Northeastern: an M.Ed. in counseling, M.Ed in higher education, B.A. in history and political science, and a doctorate in higher education and administration from Boston University. He was a "co-op kid" in the office of the Vice President for Administration in 1954.

Curry served as a Saugus elementary teacher, secondary school teacher and director of pupil personnel services for the Swampscott Public Schools between 1970 and 1972. He returned to Northeastern and has held such positions as: dean of administration, dean of admissions, director of admissions, director of educational placement, and most currently (since 1979) senior vice president for administration.

He has been responsible for overall management of the internal administration and strategically planning for the University's future. Some of his long term focuses of the past and future include enrollment planning and management, resource allocation computers, and telecommunications network planning.

Curry has overseen efforts to improve the University's ability to retain students. According to a study conducted on the class of 1982, only 40% of those students that had enrolled in 1977 graduated. Today drop out rates have been reduced. He has promoted forums between the administration and groups like the SGA to identify problems that arise with students. He has equally supported Network Northeastern, a local alumni group which helps the university to recruit new students.

He is most proud of his accomplishments in admissions, computer services, athletics, and student affairs and will continue to be a great contributor of the University for many years to come.



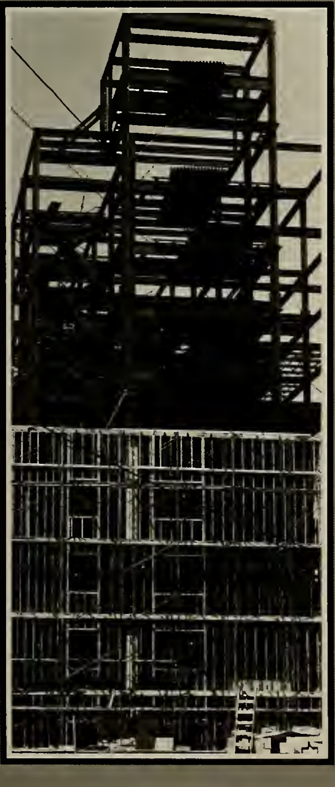
CO-OP'S 75th BIRTHDAY

October 3, 1984 marked the 75th anniversary of Northeastern's cooperative education program since 1909. The idea of co-op was first developed at the University of Cincinnati in 1906, and Northeastern followed suit.

Over the past 75 years, the University has made a strong commitment to promote co-op both nationally and internationally. Co-operative Education is based on a principle that what students learn on the job is just as important as what students learn in the classroom. The university attempts to use work experience and academic courses to increase a student's motivation and self-confidence. Co-op gives students a chance to evaluate careers early in their college years, gain meaningful work experience before graduation, establish professional contacts or references and earn salaries toward living and tuition expenses.

To mark the 75th anniversary, Boston Mayor Raymond L. Flynn declared October third as Northeastern Co-operative Education Day through a written proclamation. Mayor Flynn was unable to attend the festivities and was represented by his special assistant, Robert Gonslave, who read the proclamation to students, faculty, and members of the Administration in the overcrowded Quad. President Ryder served as the master of ceremonies and cut the anniversary cake in the quad to begin the festivities. There were clowns, magic acts, a barber shop quartet, and free refreshments.

Participation in the Co-op Plan is required of all students in the basic colleges except those in the College of Arts and Sciences and is considered a degree requirement for most programs. Northeastern provides students with the opportunity to get an "Education That Works."



COPLEY PLACE OPENING

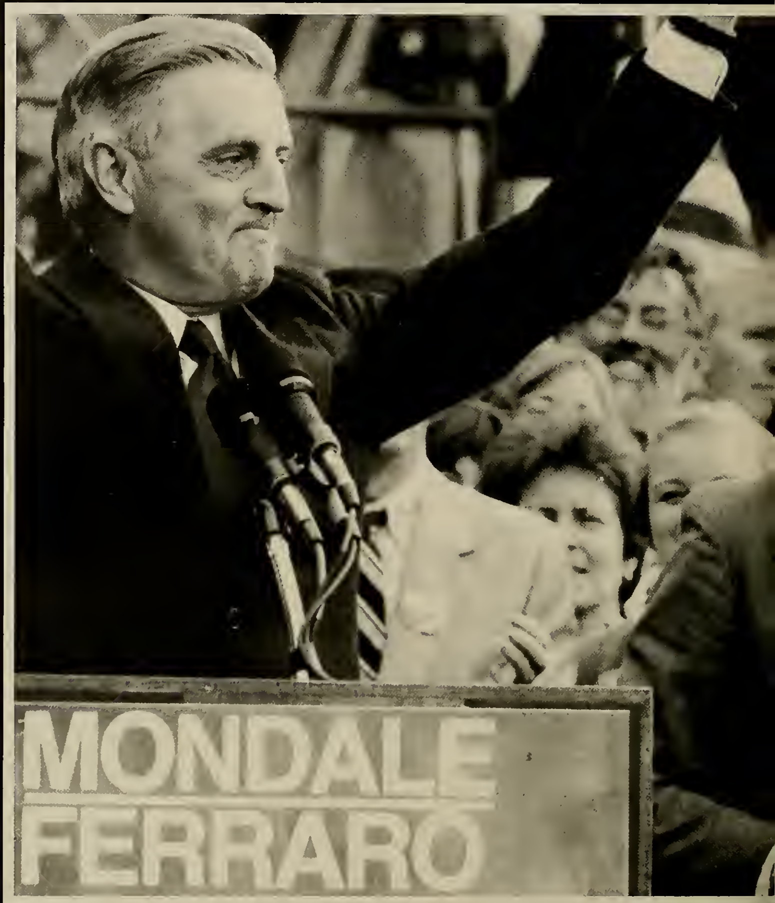
On February 13, 1984 Coplay Place swung open its doors to the public. Nearing completion, Copley Place is one of Boston's largest private developments with a price tag of $500 Million dollars. In its day, it compared with today's private real estate projects like One Executive Place and One Memorial Drive. It covers 9.5 acres of Back Bay land, and harbors some 70 high fashion retailers.

The complex originally began construction in November of 1980 by a Chicago-based firm and subsidiary of Aetna Life and Casualty. Copley Place spawns out over 3.7 million square feet. Popular hotels such as the Westin and Mariott occupy the end of the plaza making it easily accessible. Popular retailers such as Neiman-Marcus, Gucci's, Godiva Chocolate and Mrs. Field's Cookies offer a shopper's paradise. The plaza also houses many fine eating establishments such as Durgin Park and offers entertainment ranging from a nine screen cinema to meeting places like the Commons.

REAGAN'S LANDSLIDE VICTORY

President Reagan returned for a second term in the White House with one of the great electoral and popular vote counts in American history. He carried every state except for Washington, D.C. and Walter Mondale's home state of Minnesota. Although the presidency was a victory for the Republicans, the Democrats managed to hold the majority in the House and gained more seats in the Senate, leaving the Republicans with only a slight majority.

Reagan renewed American patriotism and stressed that citizens should be "PROUD To Be An American." He downplayed his age, taxes, defense spending, and the federal deficit during his campaign. Mondale came across as weak and indecisive to the American public, and his campaign did little to change that image.



GANDHI ASSASSINATED

The Prime Minister of India, Indira Gandhi was assassinated by her own guards as she was walking through her gardens on October 31, 1984. As the news of her death spread through the countryside, thousands of people were killed in bloody riots in the week following.

In 1971 her political base was threatened, and in fear of being overthrown, she declared a state of national emergency. To ensure her own political power, she often resorted to desperate measures: putting opposition leaders in jail; limiting civil rights; and imposing censorship on the media. In 1980 she was re-elected as Prime Minister after being ousted in 1977.

Indira Gandhi was thought to be the most dominant figure in Indian politics since the 60's, and was the successor to her father Jawaharial Nehru. He equally dominated Indian politics twenty years before her. She was a political figure of great controversy within her own country and throughout the world. She pushed for her nation to have closer ties with the Soviet Union.

Gandhi was reportedly assassinated by a large group of militant Sikhs who opposed her. The militant group of Sikhs were demanding a separate state, and were upset with Gandhi sending Indian troops into their most holy shrine in Amritsar during the summer months. According to Indian reports she also sent the troops to prevent the spreading of Sikh violence there.

WINTER AND SUMMER GOLD

As presidential elections and leap year come every four years, so did the Olympic Games in 1984. The XIV Winter Olympics held in Sarajevo, Yugoslavia, and the Summer Games held in Los Angeles gave many unknown U.S. Amateur athletes the opportunity to walk away with gold medals and become overnight American Heroes.

Scott Hamilton stunned spectators with an outstanding gold medal ice skating performance, and also gained the admiration of people around the world. Bill Johnson surprised everyone by winning the first gold medal ever by a U.S. citizen in an Olympic downhill skiing event. Two brothers, Phil and Steve Mahre, took the gold and silver medals respectively in the men's slalom. Rosalyn Sumners took a silver medal as she dazzled the hearts of millions with her ice skating performances. Even though the men's ice hockey team failed to win the gold as their 1980 predecessors did, the team proved that the United States can play competitive ice hockey on an international level.

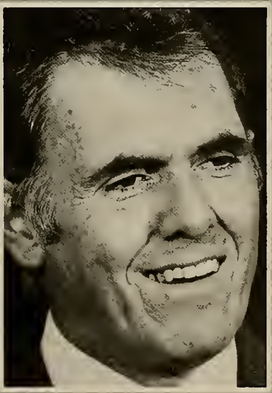
As the cold winter months of 1984 passed, America made its final preparations to host the Summer Games in Los Angeles. A highlight was the final marathoner carrying a torch lit in Greece up the stairway to ignite the main torch. President Reagan officially declared the opening of the Summer Games in the Los Angeles Memorial Coliseum. A spectacular "Hollywood Type" show with hundreds of white baby grand pianos, a grand chorus of thousands, and laser lights followed the opening ceremony.

The Soviet Union withdrew from the Summer Games, as did other countries, claiming that the U.S. could not provide adequate security for their people, however, the games still had a record number of countries participating.

Tiny Mary Lou Retton tumbled her way into the spotlight as she earned a perfect score of ten and established an excellent reputation for U.S. women's gymnastics. Men's gymnastics, led by gymnast Bart Conner, won the team title.

Carl Lewis, Joan Benoit, Evelyn Ashford, and Edwin Moses all captured gold medals in men's and women's track events. Diving, swimming, basketball, boxing, and other sports held similar results for the U.S. Although the Soviets claimed that the results were tainted due to their absence, the results of the Summer Games and the athlete's performances could not be disputed. These athletes still remain in the hearts of millions as we support returning athletes in the 1988 Winter and Summer Games.

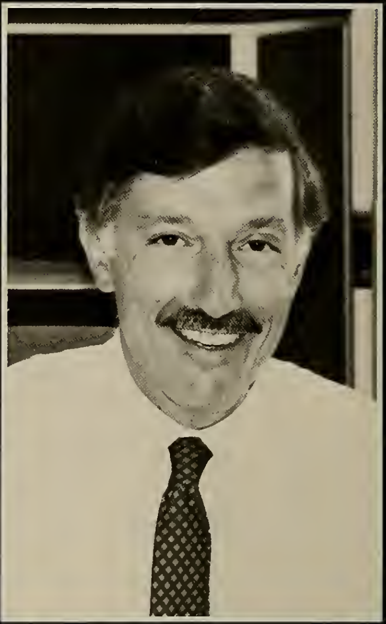
FLYNN IN: '84 MAYORAL RACE



1984 was also an important year for politics locally. Boston's Mayoral race included a black candidate, Mel King and Raymond L. Flynn.

King wanted to help create a Boston that was caring and uplifting. For some people he represented a social change in government. He is known for his sensitivity to city problems such as housing, civil rights, and education. He also formed a group called the Rainbow Coalition made up of previously alienated and under-represented voters striving for better opportunities in the city of Boston. It's members include women, blacks, homosexuals, Hispanics, and many liberal whites. Even though he didn't receive a large portion of the popular vote and lost to Raymond Flynn, today his coalition continues to hear a strong voice within the Boston community.

PARK RETIRES: PENNA IS NEW PROVOST



In 1984 we gained a new executive vice president, but Northeastern went through another administrative change in 1985. After serving five years as Provost and Senior Vice President for Academic Affairs, Melvin Park announced in May that he would seek early retirement from the university. He joined the University in 1962 as a professor of thermodynamics and was Dean of the College of Engineering from 1968-1979. In 1979 he became provost and Senior Vice President for Academic Affairs.

When he was the Dean of the College of Engineering, he reorganized Lincoln College to introduce new full-time cooperative programs leading to the Bachelor's Degree in Engineering Technology. The college also achieved accreditation for day and evening programs during his tenure.

During his tenure as provost, the College of Education and Boston-Bouve were merged into a single college. He supported new efforts in cooperation with industry in the high technology area, and was dedicated to ongoing research projects in the university. His office was instrumental in the expansion of the Office of Sponsored Programs and also helped to improve faculty teaching credentials. Although Northeastern lost him to early retirement, the university community gained from his contributions made to academics.

In May of 1985, Dr. Anthony Penna accepted the university's offer to be the next provost. Impressed with his past achievements at Carnegie-Mellon University, he was the Perfect choice of the search committee, the Council of Deans, and the University's Vice President.

Today, Dr. Penna faces challenging ways to improve the University and the issues most important to Northeastern's future. Like his Predecessor, the university will improve by his contributions as we move through the 80's.

NU IN MANDELA?

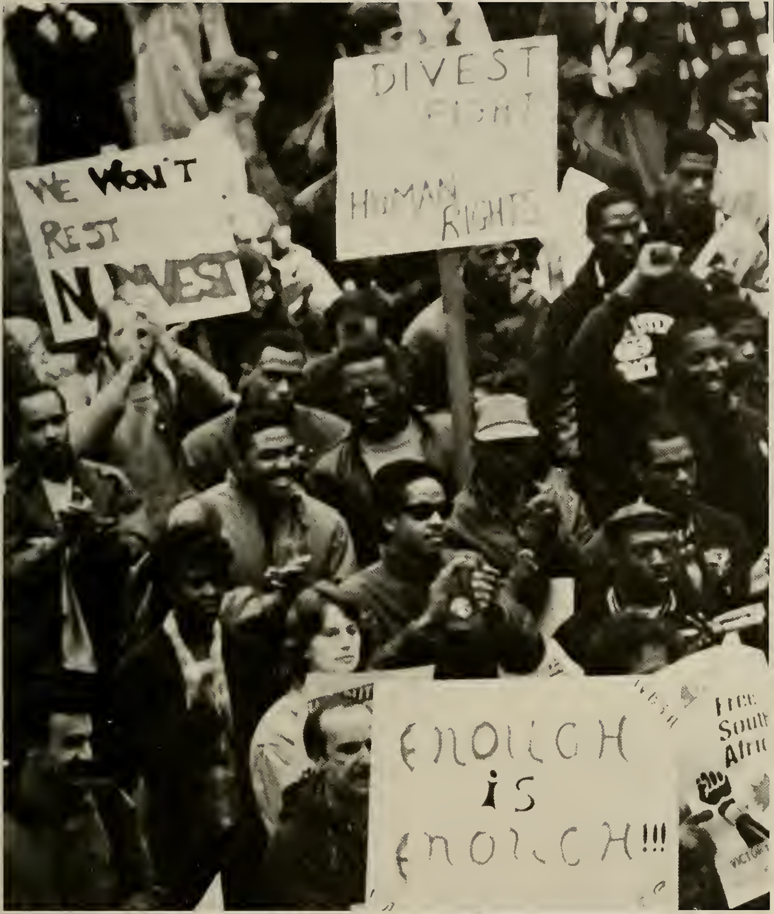
NORTHEASTERN UNIVERSITY

The Greater Roxbury Incorporation Project (GRIP) presented a petition early in the fall of 1986 to the Boston City Council to place a non-binding referendum question on the November ballot.

The question was: Should a 12.5 square mile portion of the city including Northeastern be allowed to secede and become Mandela, Massachusetts? GRIP organizers claimed that tax monies from the towns inside the 12.5 mile area were not being used to support their community, and that the city hall in Boston was taking the funds never to be seen again. The area involved in the GRIP proposal included lower income sections of the city like Dorchester and Roxbury.

The assessed value of the area involved was more than $1 billion dollars and in addition to Northeastern it included Roxbury Community College, U-Mass Boston, Mass College of Art, Harvard Medical School, and Boston City Hospital. Organizers of the project estimated that the area would generate $129 million in revenues with $122 million in expenditures leaving $7 million for its first year of operation. If they had seceded, Mandela would have had to combat the high crime rate, provide schools, fire departments and many other services that the city had provided.

GRIP's proposal for Mandela failed and Northeastern still remains in Roxbury.



THE NEW CLUB ELL

Just as the Cask reopened as Maxwell's, the Rathskellar reopened as Club Ell in October of 1985.

Along with the name, the new Club Ell took on a whole new image: one without alcohol. Northeastern joined the list of universities that banned alcohol from campus pubs like the old Rathskellar. You didn't go there to get "faced" since there was no alcohol served. Doing away with alcohol paved the way for the university to provide students with other sponsored programs.

Club Ell was the place for people who wanted to meet other people while having a good time doing it. Along with the popcorn, the activities were free.

Monday nights were football nights and music videos played on scheduled dates. Tuesday nights featured Club Ell coffee house shows, Wednesday night Trivial Pursuit games gave students a chance to show off their knowledge. Thursday nights were movie nights and Fridays Club Ell presented different bands. All this beat cramming your friends into your small dorm room to watch your dinky black and white T.V.

Numerous attempts were made by student organizations to bring alcohol back on campus to the new Club Ell, but all failed. The numerous circulated petitions did not convince the University's administration to change their minds.

APARTHEID NU DIVEST!

In 1985 over 700 people, mostly black, died as a result of South African violence as their perpetual feud with white ruling minority, violently exploded against their nation's apartheid system of racial segregation.

Under apartheid, all South African's are classified by race when they are born determining where they will work, live and attend school. They are given a passbook with this information and must carry it with them at all times in case they have to present it to law officials. Blacks, asians and persons of mixed races were denied voting rights.

In response to the violence, the U.S. Senate made economic sanctions against South Africa that called for a ban on gold coins or other minor restraints. The Reagan administration's stance toward the government of South Africa was to seek a peaceful solution to the problems through negotiations and economic investments.

The Northeastern Board of Trustees decided to keep its investments in South Africa in place and to do business with only those who abide by fair employment practices by U.S. companies operating in South Africa. The university would not do business with banks that made loans to the South African government.

Later in October of 1985, students from N.U. and other nearby colleges stormed the downtown offices of I.B.M. Corporation to protest the company's businesses in South Africa. They marched from Copley Square, down Huntington Avenue, through Northeastern to the I.B.M. offices on Columbus Avenue chanting "I.B.M. you don't know what freedom means."

Several mounted and unmounted Boston police officers watched the demonstrators who charged the police force with racism. Organized by the Boston Area Student Coalition, the protest had about 100 demonstrators and attracted many more along its route.

RUSSIAN TURNOVER

Leonid Llyich Brezhnev, the General Secretary of the Soviet Communist Party Central Committee and President of the Presidium of the U.S.S.R. Supreme Soviet died at the age of 75 on November 10, 1982. He had been a leader of the U.S.S.R. for 18 years. He led his country's policies off on a radical course change with the invasion of Afghanistan, martial law in Poland, and the SALT 2 treaty.

Brezhnev's successor, Yuri Andropov, came into power with the experience of running the KGB secret police for fifteen years. Little was known about him when he came into power, and Andropov kept his life private from the Soviet public. Born in southern Russia, he started his political career in a Communist youth party, which later paved the way for chairman's seat of the KGB. After Brezhnev's death, he was elected unanimously as the Soviet party leader.

As Andropov's health began to fail, he required daily dialysis treatments which kept him out of public sight for weeks. Only fifteen months after his election, Andropov died at the age of 71 due to kidney failure.

Andropov's death paved the way for his successor, Konstantin Chernenko, who was a close ally of Leonid Brezhnev. Soon after his election, Chernenko died and was succeeded by Mikhail Gorbachev.

Today Gorbachev is building a "new" Russia. In 1985 he met with President Reagan in Geneva and described his trip as "a mission of peace," discussing the Star Wars plan, nuclear issues, and Afghanistan. He has plans for improving his nation's economic and foreign policies. In 1987 he invited western journalists to come into the Soviet Union, and allowed them to show the rest of the world his nation's cities and their peoples.

LIVE AID CONCERT

Millions of people around the world watched a BBC-TV documentary tell the story: approximately 11 million people from Ethiopia suffered as the result of a war, drought, and government corruption.

The leader of the rock group Boomtown Rats, Bob Geldof, decided to do something for the Ethiopian victims. He gathered other rock stars such as Sting, Wham!, U2, Phil Collins, and Culture Club (known as Band-Aid) to record the song "Do They Know It's Christmas." It raised $10 million.

The band's success with the record led to a worldwide telethon to raise more money for the victims. JFK Stadium in Philadelphia and Wembly Stadium in London were picked as concert sites, and the concert was broadcast live on July 13, 1985. Approximately 1.5 million people worldwide saw the concert. It grossed more than $40 million for the helpless victims.

Concert highlights included a reunion for the surviving members of Led Zeppelin and Black Sabbath. The Who, Mick Jagger, Tina Turner, Joan Baez, Bob Dylan, and over 60 other pop/rock stars also performed.

MARCOS OVERTHROWN

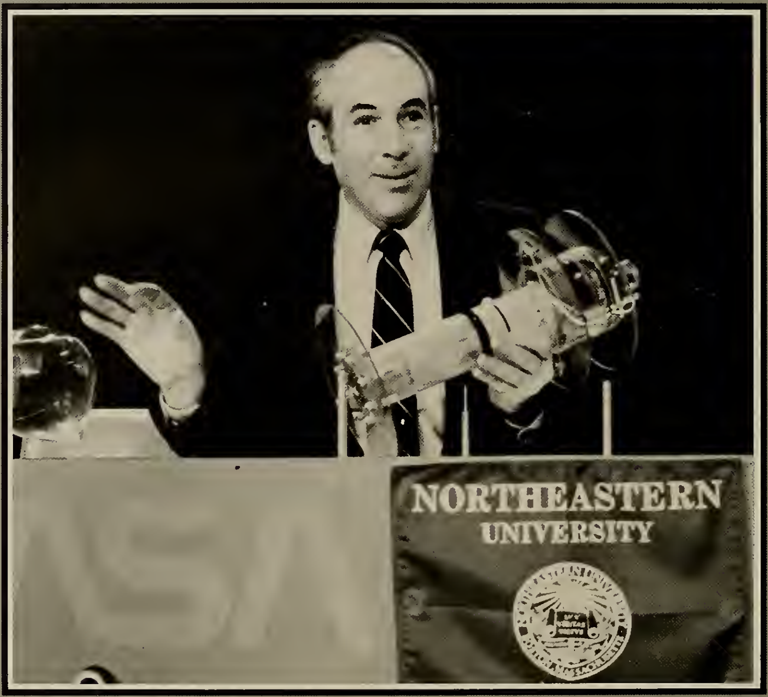
In February 1986, Corazon Aquino and her followers brought 20 years of chaotic and despotic rule under Ferdinand Marcos in the Philippines to an end.

The Marcos' fortune was estimated to be in the vicinity of 3 billions dollars; however, Ferdinand Marcos' annual income was only $5700. The Malacanz Palace was turned into a pseudo museum as thousands of Philippinos viewed the wealth and treasures of the Ferdinand Marcos family. Marcos reportedly spent a small fortune on his wife's shoes, totaling 3000 pairs.

"People Power" was the chant of Philippinos, and yellow flowers were the symbol of a new government. Earlier, the euphoric sense of democracy under Marcos had given way to many internal problems, such as high unemployment of the Philippine people and a huge deficit. These problems fueled the fire of pro-Aquino supporters in their demonstrations. Even the army turned against Marcos.

Other artists who appeared at Live-Aid included Mick Jagger and Whitney Houston.

CHALLENGER TRAGEDY CLAIMS N.U. GRAD



On January 28, 1986, the space shuttle Challenger exploded with a crew of seven aboard shortly after lift-off from the Kennedy Space Center. The shuttle burst into flames approximately two minutes after a cold early morning take-off at 100,000 feet above ground as it neared 2000 m.p.h.

Among the crew were: Francis R. Scobee, Pilot, Michael Smith, Judith Resnick, Ronald E. McNair, Lt. Col. Ellison Onizuka, New Hampshire school teacher Christa McAuliffe, and Northeastern alumnus Gregory Bruce Jarvis.

A Detroit native, Jarvis received a master's degree in Electrical Engineering while attending the evening program at Lincoln College, and working days at Raytheon in Bedford. After graduating from Northeastern, he entered the Air Force and specialized in communications satellite design. He left the Air Force in 1973 with the rank of Captain and went to work for Hughes Aircraft. In 1984 he was selected from 600 applicants to be the payload specialist for Hughes, launching their satellites into space from the Challenger. He was also on board to conduct space experiments involving fluids in a weightless environment.

Jarvis also carried with him a small Northeastern University flag that he had planned to present to President Ryder and the University Community in a special February ceremony.

Debris from the explosion landed as far as 18 miles from Cape Canaveral. Portions of the large solid rocket boosters were found floating in the ocean nearby. Apparently faulty "O" rings caused leaking rocket fuel to explode and vaporize the main body of the Challenger.

Jarvis is survived by his wife Marcia who witnessed the launch. He will be remembered and cherished at Northeastern not only as a talented alumnus, but as a powerful symbol of that special strength and dedication that is a hallmark of all America's great heroes.

FALSE LIQUOR I.D. SCAM

In April of 1986, NU police in conjunction with the state Registry of Motor Vehicles, made a random comparison of people who obtained liquor licenses over a six month period and all of the students in Northeastern housing. The cross check revealed that approximately 150 students under the age of 21 obtained false I.D.'s. N.U. Police commenced the investigation after numerous students were apprehended with liquor licenses bearing different birth dates than other documents such as their driver's license.

Students involved said that they obtained the I.D.'s by bringing falsified N.U. meal cards and cancelled checks to the Massachusetts Registry of Motor Vehicles in downtown Boston.

Students that turned themselves and their false I.D.'s in weren't brought up on criminal charges. Others who decided not to turn them in faced misdemeanor charges of up to three months in jail and up to a $100 fine.

CASK N' FLAGON
CASK N' FLAGON
fine food & drink

CASK BECOMES MAXWELL'S

Remember those Thursday party nights that you used to spend standing in the long line down Huntington Ave. with your friends just waiting to get in, or how about those rough tests and horrible final exams! Everyone would meet at one of Northeastern's favorite historical landmarks; the "CASK." You didn't know what was crawling around in the corners because it was really too dark to tell, but that didn't matter. It was a place to get together with some friends, meet some new ones, and to relieve the stress and tension of classes.

As businesses come and go, so did the CASK. The owners decided to put the bar up for sale in August of 1986. It was purchased by two new owners: Dave Elkins and Paul Hartwell. For three weeks in September the doors to the old CASK remained closed. Everyone wondered what was going on inside.

On September 28, 1986, people finally got to see what was going on. The two new owners reopened the bar on this day as "Maxwell Jumps Dance & Deli." New features were: a bar with comfortable seating, numerous color T.V.'s and a deli. WALA! The decor of the formally dank and dreary cask became casual and cosy; a sports bar and dance club all in one. The dance floor opened on October 9, 1986 and people were "Jumping."

Well, businesses may come and go, but Northeastern traditions live on. The name and decor may have changed, but the atmosphere and address haven't.

FRATS OUSTED?

In January of 1986, the town of Brookline attempted to throw out two Northeastern fraternities by not renewing their boarding house licenses.

The selectman's meeting decided that Nu Epsilon Zeta and Phi Gamma Pi, the two fraternities in question, would have to move out of their houses at the end of the school year. The two fraternities hired lawyers to appeal the town's decision.

The decision not to renew the fraternities' license came at the December 17, 1985 meeting. However, the board did renew the boarding permits of two MIT fraternity houses. While individual fraternities own their own houses, they must renew their boarding permits each year. They are needed whenever large groups of unrelated people live in a common house rather than in apartments.

At the town meetings, nearby residents complained of loud noises, music and rowdy parties. One town resident told the Brookline Tab that "they have parties 365 days a year, are out of control and aren't supervised." Another resident stated, "How many times do we have to call police and how many times do we have to find beer cans before we do something about this fraternity?"

Presidents of the fraternities said that their sides were not represented fairly and that many of the neighbors had written letters in favor of the organizations. Even people that they had problems with wanted them to stay.

Many residents at the meeting were anti-Boston and were prejudice against Boston schools and fraternities. The attitude was "We don't want frats."

Phi Gamma Pi resided in Brookline since the early 1950's and Nu Epsilon Zeta has been there for the past 63 years.

A North Star

Some people thought Oliver North was a real American hero, but others considered him a rogue warrior gone amok. At any rate, his appearance before the Iran-Contra Committee was the hit of the summer and a paperback version of his testimony was a runaway bestseller.

Despite North's personal charm, the jury of public opinion was generally thumbs down on his role in trading weapons to Iran to release hostages held in Lebanon and then diverting profits from the arms sales to the Contras in Nicaragua.

Bakker, Bakker Scandlemaker

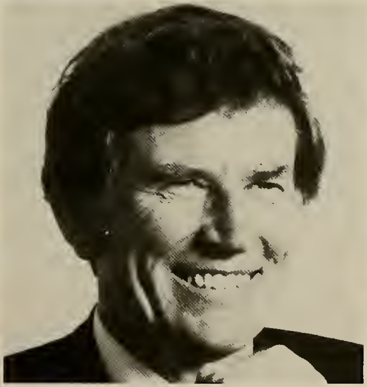
The meek may inherit the earth after all. Televangelists Jim and Tammy Faye Bakker allowed their religious empire to get out of hand and allegations of sexual impropriety and financial irregularities brought the PTL Network crashing down around them.

What hath God wrought? Ask Jessica Hahn, she went from church secretary to Bakker sexual partner to the Playboy bunny, all in one year.

A Gulf Widens

"Two, Four, Six, Eight, we don't want to mediate!" The American government eschewed the middle ground in the Middle East, choosing to send the navy in an escort oil tankers through the Persian Gulf.

By the end of the year, the policy remained a political hot potato and Iranian and Iraqui forces continued to prey on shipping with mines and missile attacks.



Hart skips beat, Rice burns

He's out, he's in, She's in, she's out. Presidential politics turned purient, when Democratic front-runner Gary Hart dropped out of the 1988 race after media reports that he had spent a night in his apartment with a pretty Miami model who was not his wife.

The model, Donna Rice, then became a pitchwoman for "No Excuses" jeans. But at year's end, Hart had re-entered the race and Rice had been sacked as spokeswoman. The whole situation was really Hart to follow.

LIBRARY?!?

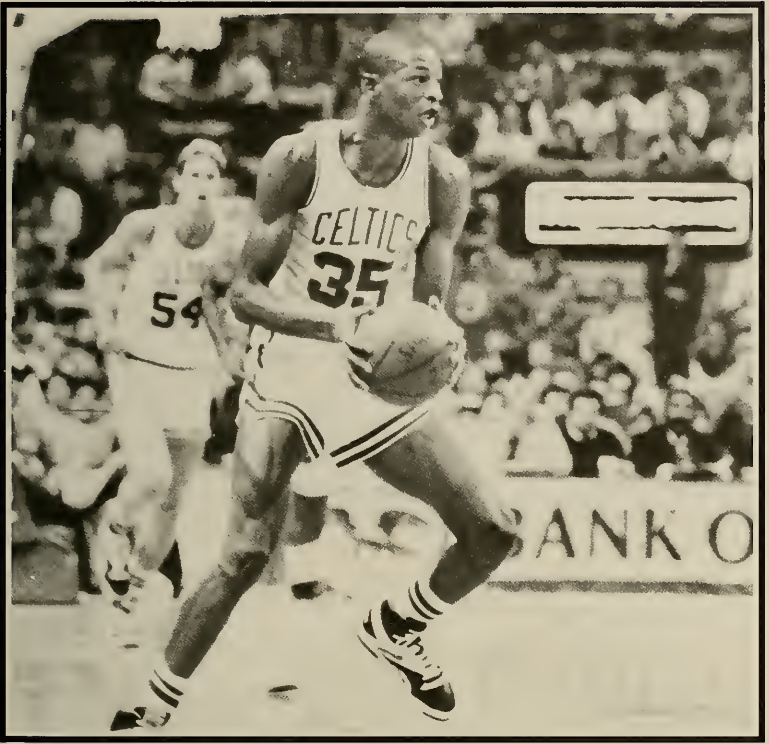
Stop us if you've heard this one before: NU is going to have a new library. In 1987, they actually had a ground breaking ceremony involving President Kenneth Ryder and U.S. Senator Edward Kennedy, so it would be likely that there will be a new $35 million library rising from the Hayden Parking lot in the next couple of years. On the other hand, the 1972 yearbook also announced the imminent construction of a new library and that never came to be. So, remember that this year, they announced a new library would be built in the next two years. Only time will tell. We're not holding our breath.

DRUG TESTING

It was certainly a case of David vs. Goliath.

Northeastern, like most major colleges, decided to start testing athletes for drug use, but an NU track and field runner told them to "piss off." And David Bally won his case, at least on the Suffolk Superior Court level, when a judge told Northeastern to bottle up its testing program because it violated student right to privacy.

The Bally case was far from resolved at mid-year but it was being watched by many schools and by civil libertarians alike as the decision was appealed up the judicial ladder. Would the highest courts put the kibosh on drug testing of students? Only time would tell.



REGGIE

For four years Northeastern students had known how good an athlete Reggie Lewis was, but no one here really knew if anyone else had noticed. After all, Northeastern's basketball team was a very big fish in a very small pond and usually lost when it confronted more famous foe.

When the National Basketball Association draft rolled around in June, a lot of people wondered just which team would pick up Reggie and whether he would be a high draft choice. Some people said he was too small to be a good professional forward and didn't possess enough ball handling skill to be a good professional guard.

The Boston Celtics picked 23rd in the first round and they didn't let the local boy slip past them. Now Lewis is good enough to be a top substitute on one of the two best teams in pro basketball. Of course, we knew it all along.

RYDER RETIRES?

In 1987, NU President Kenneth Ryder hinted that retirement might be just around the corner. But the wiley veteran of 38 years at NU stopped short of saying when he would retire.

Ryder has been president since 1976 and has presided over the second largest period of growth in the university, second only to the rapid expansion at the beginning of Asa S. Knowles' tenure in the early 1960s.

For many years, his goal was the construction of a new library and that finally seems to be reaching fruition. But Ryder, at 63, said he plans to stick around Northeastern for at least a couple more years to see the library construction through and to ensure that the university's $125 million fundraising drive is successfully completed.

Reagan takes the Supremes a' courting

Judicially, it wasn't a supreme year for Ronald Reagan. With the Supreme Court equally divided into conservative and liberal camps, Reagan was presented with an opportunity to appoint the crucial swing judge to the court. But with the Senate under Democratic control after the 1986 elections, he was unable to present just any candidate for consideration.

First, he chose Robert Bork, an appeals court judge, who had written a wide body of legal position papers over the years, most decrying the activism of the Supreme Court in the last 20 years. He was the perfect person to forward the Reagan social agenda which included reversal of previous court positions on abortion, school prayer and criminals rights. But when Bork went before the Senate he admitted that he had changed his mind on many of his earlier statements and his nomination was easily defeated.

Reagan then decided to nominate someone who had been less judicially prominent and would, ostensibly, be carrying less political baggage. He picked appeals court judge Douglas Ginsburg, a former Harvard professor. But even Ginsburg proved to have a volatile past. He admitted smoking marijuana while a professor at Harvard and he has also operated a dating service that had been investigated by Boston officials for possible fraud. On top of that his wife, a doctor, had performed abortions in the past. In the face of those revelations, Ginsburg withdrew his name from consideration and Reagan breathed a sigh of relief. At year's end, he nominated a moderate judge, Anthony Kennedy, from California and the arch conservatives groaned but many in the Senate nodded their heads in concurrence.

NFL takes a hike

Strike two and they were out again. The National Football League players ran pass-patterns on the picket lines for nearly a month as owners hired dozens of also rans for replacement "scab" ball that only alienated the fans.

Even after the strike ended, more than a few fans felt betrayed, by players who made walked rather than talked and by owners who felt the fans could stomach a less than professional brand of football.

Wall Street hit bottom of (bear)el

Ouch. On Oct. 18, 1987, the Dow Jones Industrial Average took its worst nose dive in history, losing more than 500 points in a single day. The drop sent shock waves through the American and world economies but by year's end had not had as great an impact as a similar drop in 1929. Still, the meteoric rise of the stock market in the last two years had come screeching to a halt and the economic future of the country was uncertain at best.

On campus, many students began to wonder whether or not they would be graduating into an recessed economy that would have no place for them. Engineering majors were concerned that high tech firms were retrenching. Business majors were concerned because economic uncertainty was taking the enthusiasm out of the recruiters. Arts and Sciences majors weren't that concerned. No one really wanted to hire them during the boom and now that the boom appeared over nothing much had changed. At least there was that stability in the world.

Entertainment

Oscars
1983

Best Picture: "Gandhi"
Best Actor: Ben Kingsley, "Gandhi"
Best Actress: Meryl Streep, "Sophie's Choice"
Best Supporting Actor: Lou Gossett, "An Officer and a Gentleman"
Best Supporting Actress: Jessica Lange, "Tootsie"

1984

Best Picture: "Terms of Endearment"
Best Actor: Robert Duvall, "Tender Mercies"
Best Supporting Actor: Jack Nicholson, "Terms of Endearment"
Best Supporting Actress: Linda Hunt, "The Year of Living Dangerously"

1985

Best Picture: "Amadeus"
Best Actor: F. Murray Abraham, "Amadeus"
Best Actress: Sally Field, "Places In The Heart"

Best Supporting Actress: Peggy Ashcroft, "A Passage To India"

1986

Best Picture: "Out of Africa"
Best Actor: William Hurt, "The Kiss Of The Spider Woman"
Best Actress: Geraldine Page, "A Trip To Bountiful"
Best Supporting Actor: Don Ameche, "Cocoon"
Best Supporting Actress: Anjelica Huston, "Prizzi's Honor"

1987

Best Picture: "Platoon"
Best Actor: Paul Newman, "The Color Of Money"
Best Actress: Marlee Matlin, "Children of a Lesser God"
Best Supporting Actor: Michael Caine, "Hannah and Her Sisters"
Best Supporting Actress: Dianne Wiest, "Hannah and Her Sisters"

Grammies
1983

Best Record: Toto "Rosanna"
Best Album: Toto "Toto IV"
Male Pop Vocalist: Lionel Richie, "Truly"
Female Pop Vocalist: Melissa Manchester, "You Should See How She Talks About You"

1984

Best Record: The Police, "Every Breath You Take"
Best Album: Michael Jackson, "Thriller"
Male Pop Vocalist: David Bowie, "Let's Dance"
Female Pop Vocalist: Stevie Nicks, "Bella Donna"

Jack Nicholson and Shirley McLaine both copped Oscars in 1984.

1985

Best Record: Tina Turner, "What's Love Got To Do With It?"
Best Album: Lionel Richie, "Can't Slow Down"
Male Pop Vocalist: Phil Collins, "Against All Odds"
Female Pop Vocalist: Tina Turner, "What's Love Got To Do With It?"

1986

Best Record: USA For Africa, "We Are The World"
Best Album: Phil Collins, "No Jacket Required"
Male Pop Vocalist: Phil Collins, "No Jacket Required"
Female Pop Vocalist: Whitney Houston, "Saving All My Love For You"

1987

Best Record: Steve Winwood, "Higher Love"
Best Album: Paul Simon, "Graceland"
Male Pop Vocal: Steve Winwood, "Higher Love"
Female Pop Vocal: Barbra Streisand, "The Broadway Album"

1985 and 1986 were very good years for Phil Collins.

Gregory Jarvis (top) and the other members of the Challenger's crew board the shuttle for the last time.

Phil McDonald's sudden death shocked the university in 1987.

1983

Benigno Aquino, Philippine political leader.
Paul "Bear" Bryant, 69, college football coach with 323 wins.
Karen Carpenter, 32, female half of pop group "Carpenters."
David Niven, 73, suave British actor.
Frank Reynolds, 59, ABC-TV anchorman.
Jessica Savitch, 35, NBC-TV reporter.
Gloria Swanson, 84, legendary actress of the 1920s.
Tennessee Williams, 71, one of the greatest American playwrights.
Dennis Wilson, 39, Beach Boys drummer.

1984

Yuri Andropov, 65, leader of Soviet Union.
Count Basie, 79, jazz pianist and big band leader.
Richard Burton, 58, Welsh actor and former hubby of Liz Taylor.
Truman Capote, 59, prominent southern writer and social critic.
Johnny Weismuller, 79, Olympic swim champ and silver screen Tarzan.

1985

Yul Brynner, 65, Oscar-winning actor.
Ruth Gordon, 88, Oscar-winning actress.
Rock Hudson, 59, movie and television actor.
Rick Nelson, 45, 1950s TV star and rock musician.
Orson Welles, 70, radio and movie actor, director and producer.
E. B. White, 86, Children's author and literary stylist.

1986

Ted Knight, 62, silver haired television actor.
Hank Greenberg, 75, Hall of Fame baseball slugger.
Kate Smith, 79, American patriotic singer.
Marlin Perkins, 81, zoologist and television wildlife guru.
Perry Ellis, 46, fashion designer extraordinaire.
Gregory Jarvis, 41, NU grad and space shuttle Challenger crew member.

1987

Liberace, flamboyant pianist and entertainer.
Woody Herman, 74, jazz clarinetist and big band leader.
Bob Fosse, Emmy, Oscar and Tony winning choreographer.
Philip McDonald, NU business college dean.
Ernie Hall, 20, NU basketball player.

Two Beans In One Pot

- Irwin Cohen becomes Athletic Director.
- Men's Crew wins Club 8's at the Head of the Charles Regatta.
- Men's Cross Country takes 2nd place in the New England Championships
- Seven New England teams from Hockey East.
- Men's track team wins GBC's and NE's.
- Men's and Women's Hockey teams win The Beanpot.
- Basketball star Mark Halsel becomes the NU all-time leading rebounder.
- Women's Gymnastics team goes 11-6.
- NU Defensive End Sean Jones drafted by the Los Angeles Raiders.
- Men's hoop team wins ECAC-NAC and a trip the NCAA's.
- Football team denied entry into the Yankee Conference for the 5th time.
- Men's basketball coach Jim Calhoun named both Kodak and UPI Div. 1 Coach of the Year.
- Women's basketball coach Joy Malchodi named Converse Div. 1 Coach of the Year.
- Former NU football star Dan Ross signs with the USFL's Chicago Blitz.

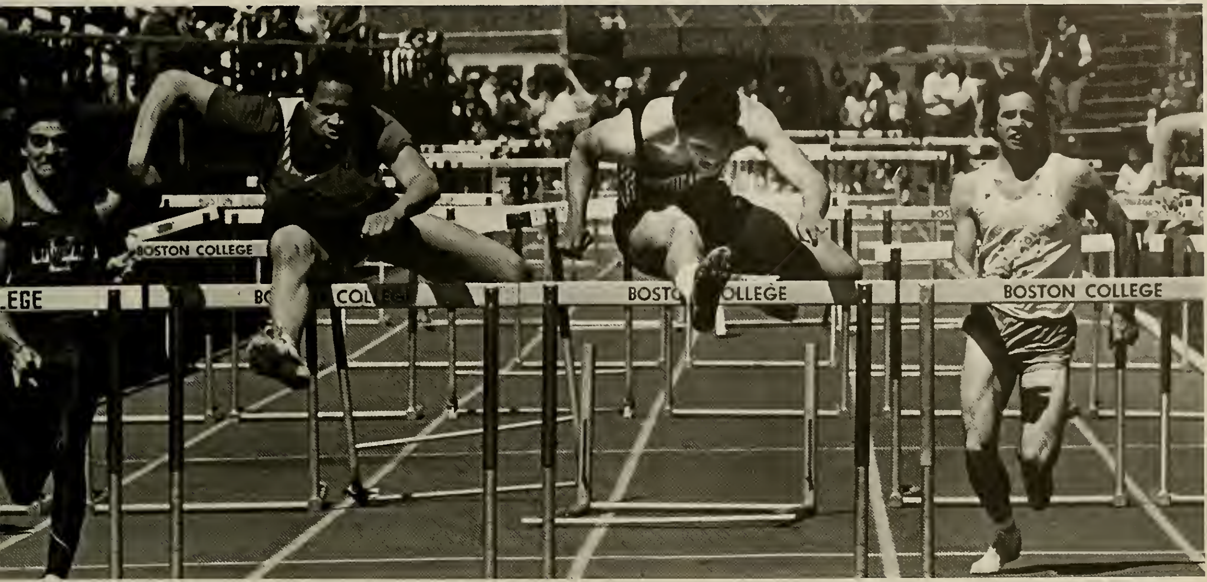
1984-1985

New Faces in the Crowd



- Soccer gains varsity status.
- Geoff Hart breaks NU career field goals record with 21.
- Former Boston Celtic Tom "Satch" Sanders named Associate Director of the Center for the Study of Sport in Society.
- Women's Basketball team enters new league — The Seaboard Conference.
- Men's track team wins the Greater Boston Collegiate track Championships.
- Women's Track team places third in GBC's.
- Women's Crew team gains new coach Beth Emery.
- Women's Basketball team wins Seaboard Conference Championship.
- Men's Basketball team wins ECAC-NAC championship and another trip to the NCAA's.
- Women's Crew team takes the Smith Cup.
- Kristin L. Burns named Assistant Director of Women's Athletics.
- Former NU shortstop and 2nd baseman, Neil McPhee named new baseball coach.

1985-1986

A Year of Champions

- — Women's tennis team wins the sportsmanship Award at the New England Women's Intercollegiate Tennis Championships.
- — Women's Field Hockey team wins ECAC Championship.
- — Women's Volleyball moves up to Div. 1.
- — David Bally, member of track and field team sues the university to overturn its proposed drug testing procedure.
- — Women's Hockey team reaches #1 in the country.
- — Men's track team captured its third straight Greater Boston Indoor and Outdoor track championship.
- — Women's Hockey team wins the Beanpot for the third consecutive year.
- — Women's swim team finishes second in New Englands.
- — Women's swim coach Janet Swanson garners Div. 1 coaching honors.
- — Men's and women's basketball coaches Jim Calhoun and Joy Malchodi named Coach of the Year in their respective conferences.
- — Women's Basketball team wins Seaboard crown.
- — Men's basketball team wins ECAC Championship and trip to NCAA's vs. Oklahoma.
- — Men's basketball coach Jim Calhoun accepts head coaching job at UCONN.
- — Karl Fogel named new basketball coach.

1986-1987

Record-Breaking Season

- Women's athletic director, Jeanne Rowlands receives Katherine Ley Award.
- Field Hockey's Karen Davidson breaks all-time scoring record.
- Men's Basketball team defeats defending National champions — Louisville Cardinals
- NU quarterback Jim O'Leary breaks single season rushing record.
- Women's tennis team and lacrosse team dropped.
- Men's track team wins 4th consecutive GBC Indoor track championship.
- Reggie Lewis becomes the all-time leading scorer in New England Div. 1 history (2546).
- Women's Hockey team captures 4th straight Beanpot.
- Point guard André LaFleur becomes NCAA all-time assist leader.
- Men's basketball team gains 4th straight trip to the NCAA's.
- Women's basketball team wins Seaboard crown.
- Women's crew team claims 3rd consecutive Orange Cup.
- Goalie Bruce Racine named to The University Division All-American first team.
- Baseball's Chuck Allard sets career homerun record.
- Former football and track star Lonnie Hooker signs as free agent with the Patriots.
- Three basketball players drafted by the NBA: Reggie Lewis, Andre LaFleur and Gerry Corcoran.
- Baseball pitcher Brian Baldwin drafted by Seattle Mariners.

FOOTBALL

Two late season losses prevented the Northeastern football team from going to the postseason NCAA Division I-AA play-offs, but the Huntington Hounds did post their first winning season in four years.

NU opened the season with two convincing wins, 39-22 over Towson State and 20-12 over Connecticut, and things were looking up, but then they lost their next two games and seemed destined to go to 2-3 when they faced the University of Maine without star wishbone quarterback Jim O'Leary. But backup QB Rich Rodriguez stepped in to lead the Hounds to a 21-17 upset.

The next week, NU dropped a close 24-16 tussle to New Hampshire to even its record at 3-3. But in the next three weeks, NU's defense, led by pro-prospect defensive lineman Darin Jones, led the Huskies to three convincing wins, 41-28 over Villanova, 51-10 over Southern Connecticut, and 21-3 over traditional power Rhode Island.

At this stage, Northeastern was 6-3 and heading for the play-offs. The crucial game was against nationally-ranked James Madison. Unfortunately, the NU juggernaut ran out of steam and lost to JM 13-3. NU's disappointment was ob- vious and it was upset by weak-siste UMASS, 27-7, in the season finale.

Judy Dragos

MEN'S HOCKEY

With a Beanpot triumph and a solid second place finish in Hockey East, the Northeastern Men's hockey team's 1987-88 season was one of its most successful.

Led by All-American, and Beanpot MVP goalie, Bruce Racine, the Hounds finally combined offense and defensive play into a package that allowed them to dominate most of the teams they faced this season.

Granted Hockey East rivals Boston University and Boston College lost several of their best players to the United States and Canadian Olympic teams, but the strong play of Racine and the swarming offensive talents of forwards David O'Brien, Kevin Heffernan, Rico Rossi, Joe MacInnis and Dave Buda which resulted in NU scoring nearly five goals a game, was a sign that this would have been Northeastern's year with or without the Olympic defections. Northeastern itself could have been hurt just as badly, with Racine considering and then turning down a spot on the Canadian squad.

Graduation will hurt the team next season with Racine, Heffernan, O'Brien, MacInnis, Mike McDougall, John Ridpath and Claude Lodin leaving the team but several younger players such as Harry Mews, Will Averill, Tom Bivona and Rob Cowie showed signs this season that they will fill the shoes of the departing starters.

Huskies

DULUTH

N.U. STEALS THE BEANS!

Prior to 1980, Northeastern had never won a championship in the Beanpot, but as the decade of the 1980s winds down, NU has become in the dominant team in the yearly classic that determines the city bragging rights for NU, Boston University, Boston College and Harvard.

Alhtough NU entered this year's Beanpot as the most powerful offensive team in the city, it was the defense of Husky netminder Bruce Racine that led the way to the title.

Racine, who was the Beanpot MVP in NU's last successful quest as a freshman in 1985, picked a perfect time to record his first collegiate shutout by whitewashing Boston College 4-0 in the opening round. It was the first time BC had ever been shutout in Beanpot competition.

In the championship game, Racine turned back nearly 40 BU shots in leading Northeastern to a 6-3 victory. It was NU's fourth Beanpot title in the last eight years.

Men's Basketball

Things looked grim for the Husky Hoopsters at the start of the season. The heart and soul of the team, forward Reggie Lewis (the ninth-leading scorer in NCAA history) and Guard Andre Lafleur (the all-time NCAA assistant champ) had graduated. But there was a solid core of returning players including pivotman Kevin McDuffie and guard John Williams, as well as super soph Derrick Lewis.

But the optimism was short lived when the opening games of season, in the Fleet Classic in Rhode Island, showed NU just how tough it would be to live up to the legacy (three NCAA tourney trips in four years) during the Lewis years. NU lost to a reasonably good team (Louisiana Tech) and to an incredibly weak one (Fordham).

At one point, during January, the Huskies were an abismal 2-6, but things had turned around a little bit by February when a three-game winning streak brought the team to a 7-7 record. Still they were well behind conference leaders BU and Siena and the Huskies' four year dominance of the ECAC-North appeared at an end. One bright spot was the play of freshmen Barry Abercrombie and Steve Carney who set team records for rebounding early in the season. The key to the rest of the Husky season seemed to rest with the veterans, like Lewis and McDuffie who were finally starting to assert themselves as winter deepened, and tournament time drew closer.

HUSKIES

WOMEN'S BASKETBALL

Northeastern's women's basketball coach Joy Malchodi expected 1988 to be a rebuilding year for the defending Seaboard Conference champions, but even she was shocked by the trouble that left Northeastern barely able to field a team of five healthy players early in the season.

First the team was hurt by an NCAA ruling that knocked two scholarships from each team in the country. Some teams were able to delay any effect because they had seniors on their roster but Northeastern didn't have that option. Eventually, the NCAA rescinded its decision but the recruiting season was past and Northeastern was left with only four new players and a total of 12 people suited up for the season. Then one player decided not to return and starters Leslie Willis and Shayna Sterrett were felled with injuries. Two of the incoming freshmen were also injured and a third was ruled ineligible for other reasons. The team was left with seven players able to play and three of those were nursing minor injuries.

So the team started out 0-7, but rebounded slightly to have a 4-13 record near the halfway point and a league record of only 2-3, leading some to believe that they would be a factor in the conference play-offs later in the year and had high hopes for the next two seasons when players recovered from surgery and the younger players — thrown into the heat of the fray by the numbers game — matured with their experience.

WOMEN'S HOCKEY

PERFECT. There's no other way to describe the Northeastern Women's Hockey Team's best season ever.

For the past few seasons, Northeastern and the University of New Hampshire have duked it for national supremacy in women's hockey and UNH has always seemed to come out on top. In several of the years, UNH's dominance has been established by narrow 2-1 margins in the team's three game series each year. But this year, NU won the climactic season ending battle 7-5 to finish 24-0-1. And led by Donna Lynn Rosa and Tina Cardinale, it prepared for the NCAA play-offs and its first outright national title in several seasons.

MEN'S CREW

The high point for the men's crew team this year was the Cincinnati Regatta in which Northeastern stroked down the Ohio River well ahead of teams from Harvard, Brown, Wisconsin and UCLA.

At the Foot of the Charles race in the fall, NU's four-man with cox team of Jeff McLauglin, Ron Korb, Ed Novicelli, Pat Manning and Tim Lenhard finished second to Harvard, with another team of Steve Potter, Mike Porterfield, Chris Fibbe, Brian Catough and Glen Quizon in third.

The men's heavy eight team came in 6th place overall at the Head of the Charles, but it was only in second among college entries.

NU oarsman Jeff McLaughlin rowed in the sixth-seat on a heavy eight team that won the national championship and then went on to Copenhagen where it won the world's championship for the first time since 1974. McLaughlin expects to compete in the 1988 Summer Olympics in Seoul.

BASEBALL

The Husky Nine fought their way to a 20-13 record in 1987 but lost the conference title to the University of New Hampshire on the second to the last weekend of the season.

Junior Chuck Allard had the best year of his three-year Husky career setting single season and career marks for home runs (11 and 25) and RBI's (37). He also maintained his career batting average at .322 and closed to within 17 RBI's of the Northeastern career mark.

Women's Crew

The women's varsity four crew team, consisting of Bonnie Korb, Shoshanna Abeles, Kerstin Templeton and Kristen Prendiville, finished second in the Foot of the Charles, 10 seconds behind Radcliffe.

The second NU team of Liz Cantwell, Aimee Lyons, Laura Miller, Jen Narcisi and Deb Ryan finished 12th.

The Novice women's team — Mary Ann Mullen, Kara Welch, Kim Hohenedal, Sonya Bogaars, Molly O'Connor, Eileen Cattie, Andrea McPherson and Devry Garrity, was fourth out of 51 teams in the eights competition.

SOCCER

The Northeastern soccer team set a season record for wins despite finishing with an overall record of 5-12.

Andrew Dias, Kevin Flanagan, Tony Dias and Joe Belanardo were the offensive stars for the team, which suffered five losses by a single goal, a great improvement over previous years when the team was blown out in many contests.

Freshman Doug Coutts was also bright spot who stabilized the midfield for the team and assisted on many goals.

Andrea Carr

VOLLEYBALL

The Northeastern Invitation Volleyball Tourney was a microcosm of a very successful season for the NU volleyball team.

The Huskies were down 3-1 in a best of five match against defending champion UMASS, when they rallied to win the next two games and defeat the champion to win the championship. Along the way, NU also blew out teams from Rutgers and Brown to establish itself as one of the dominant Division 1 teams in New England.

For the second straight year, the defensive net play of Marcia Armelino led the Huskies, while Co-Captain Becky Orsi's power slams broke the backs of numerous opponents. Co-Captain Karin Mackinaw was also strong at the net.

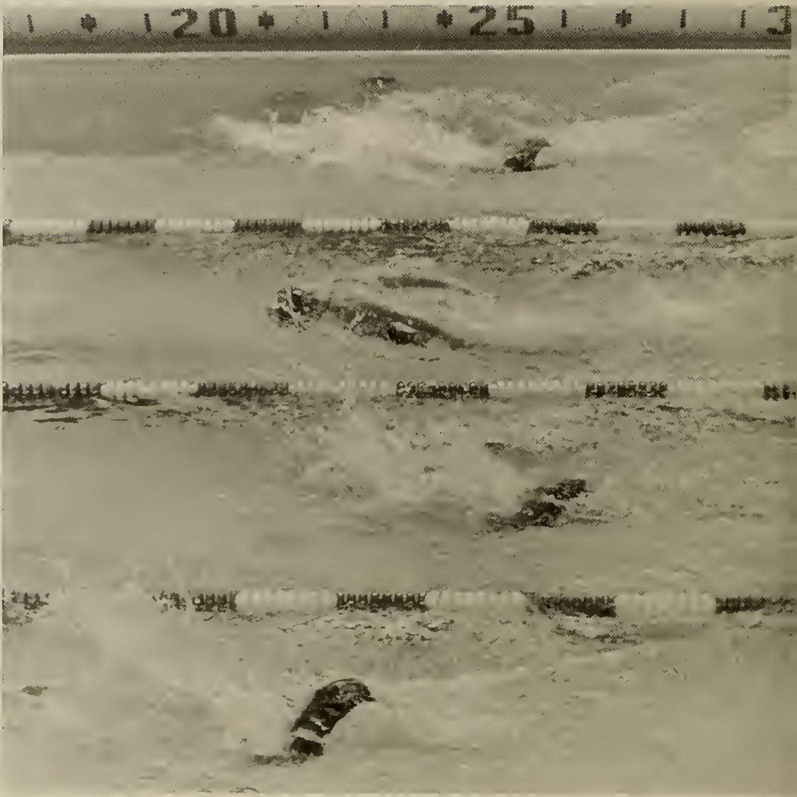
WOMEN'S SWIMMING AND DIVING



Ha Pham

When the Northeastern women's swimming team faced off against the competition in the New England Championships in February, it expected to finish third. But the Huskies surprised even themselves by setting 16 school records and narrowly losing out to defending champion Boston College.

Senior captain Linda Porter swam the race of her career in winning the 200-meter breaststroke in a region-record time of 2:28:21. Porter also scored points for the Huskies by finishing fifth in the 400 individual medley, fifth in the 100-backstroke and ninth in the 200-backstroke.

Junior Kathy Deignan set a meet record in the 500-freestyle and set a school record in winning the 200-freestyle. Senior Denise Neibel, Donna Jungbluth and Sandra Peco also set personal bests in several events.

Junior Michele White and freshman Dana Kozimor dominated both diving events at the championship. White, Kozimor and Sue Fegeley went on to the NCAA regional championships in March.

Prior to the New England's NU was 9-1 in dual meets and leading the ECAC.

FIELD HOCKEY

In an extremely successful season, in which the Women's Field Hockey team, raced out to an 11-5-1 early season record, no Husky player was more successful than Ann Mucera.

The sophomore star was named an honorable mention All-America. The Lynnfield High graduate wasn't the only Husky to be noticed by competitors. Senior captain Sharonb George and junior Jenine Fisher, were named to the All-Regional New England team, along with Mucera.

CALCULUS
USED

Diane L. Meinholz

The very first day, the top tulips in the College of Arts and Flowers decided we needed to take a math test. It was all downhill from there.

The orientation form said to register at 8 a.m. in Matthews Arena. Silly us, when we lined up we assumed it would take a while, but same day service was expected. Wrong!

Still most of us survived. One student even graduated a year early because he remained in line rather than go on co-op.

Then there were the classes . . .

Western Civ was presented as a fait acompli. We had to sit in front of a video tape and take notes so some grad student could test us late some afternoon. Then a real teacher would magically materialize in a special colloquium and ask us what we thought about it all. We thought it stunk and were kind of bitter when that form of Civ was gradually replaced during our tenure. On the other hand, we managed to sneak by in the last full year of distribution rather than core-curriculum, so it could have been much worse.

Freshman English was fun. When all the students brought in their first assignments they were read out in class and we all sat smugly thinking what cretins everyone else was. Then we realized everyone else was thinking the same thing about us and that made us angry. Then we imagined one of the cretins getting a co-op interview before we did and thoroughly exposing the educational fraud of NU to the potential employer. We briefly considered transferring to the Biz College and decided against it. You should always dance with the girl/guy that brought you.

It seemed like the whole freshman year was spent in interviewing, resume writing and cover letter workshops. The head carpenters in the College of Arts and Crafts were concerned that we present ourselves well, even if there were no jobs to be presentable for.

And then there were the jobs. Some A and S students were fortunate, they got to go to Disney World. Some, particularly journalists, were fortunate to have a semi-marketable skill and got paper routes. The rest proved their mettle in Store 24 or Filene's Basement. The absolute lower crust were hired by Northeastern. No-op Co-op became a permanent part of the vocabulary.

When we got back it was time run the financial aid obstacle course and leap over tall bursar's blocks in a single bound. We laughed when they told us the average NU student earned $300 a week on co-op and saved 80 percent of that for school. Then we realized they were serious and, as our faces sunk, they began smiling. They reached into their bags of burden and pulled out loan forms and we signed our lives away. Since A and S majors make so little on graduation, we can spread the repayments out over time. My payments are slated to cover the Pleistocene Era.

So we muddled through the middle years, the forgotten years, the years of linestanding dangerously. We matured. We got older. Our student loans mounted and we learned to schedule classes between 10 a.m. and 2 p.m.

We memorized the names of presidents and we absorbed old English verse. The scientists among us took English As A Second Language and the non-scientific swam through Fun With Fishes. Some folks mispronounced foreign languages and others suffered extra sciences. There was the BA and the BS, but it was really all the latter.

Then we concentrated. Oh, did we concentrate. In fact, we concentrated on getting through our majors with as little contact with our advisors and department teachers. We learned that the grass not only always looked greener outside our majors but that electives sometimes offered live grass.

Near the end, we came face to face with the real world. The Office of Career Placement announced job interviews and we felt the sting of second class citizenship. Arts and Science majors need not apply, except of course at Sears and K-Mart. But at a certain point, it didn't matter anymore. We decided to go to grad school. We had not learned a skill so we figured that more education couldn't hurt. If we were lucky, we could go on and on in higher education and someday return to Northeastern as administrators.

The head postmasters in the College of Arts and Letters just smiled and told us we were a higher calling, an educated few, ready to brave the world and save the technocrats from their own lack of morality when society once again decided to honor the righteousness of a liberal arts education.

In the meantime, we could all go to Europe for months after graduation. We didn't have jobs to worry about anyway.

The Practice of Public Relations
Quantitative Methods for Business Third Edition
Basic Business Statistics
Accounting
Managerial Finance

Diane L. Meinholz

As a student in the College of Business I have realized it has been a long tedious journey wrought with potholes, concepts and many other obstacles I never thought I'd encounter as a "business student" (b.s.).

There were the first classes we had to take in the fall of '83. They were all dependent on your major and concentration. Well, up to this point I had thought was a person in the Army and concentration was a type of camp in Hogan's Heroes.

We went through tests to see what level math and English classes we could take. Yes, this was a joke. All the students who had older siblings knew they should score low on these tests. This was so the first couple of quarters at NU would be easy. The half who didn't know this took Stats 2 their first quarter and almost decided to transfer to UMASS Boston.

As the first quarter came to an end we began to think "this isn't so hard." Problem was we couldn't say that to anyone else. Every other student at NU felt that business was the easiest major, tailor-made for students who couldn't make it in any "real" major.

We were laughed at by everyone. The engineers, dweebs that they are, felt that we should take 5-6 classes a quarter and have no social life, like them. The computer scientists to be felt that business classes were volleyball and tanning, along with a healthy diet of Budweiser and Nachos. Other majors also felt strongly about our curriculum and degraded us at every turn.

Our last laugh, or so we thought, came when it was announced that only business majors could register for business classes. This would eliminate lines, full classes and many other hassles we might run into. No so. Every time registration came around the classes were full, the lines monstrous and the hassles, infinite.

So we trudged on . . .

Freshman year passed and many of the b.s. got anxious about co-op. This was the program that Dad said would save your inheritance money by taking care of college expenses. He was sadly mistaken. Co-op didn't materialize as a cure-all for the poverty we had after a nine-month period of drinking and socializing. It was more like something to help finance a Thursday night at the Cask and Flagon.

The middle years, Sophomore, Middler and Junior, were the most important of our lives. We learned that the working world is different than a part time job at a gas station or restaurant. It is made up of real people in dull jobs making a buck to support themselves and their families. This was a part of the "Education that Works" that was really a learning experience.

Jobs at IBM, Citibank, GE and AT&T were the cream of the crop. Places like White Plains, N.Y. were as magical and wonderful as OZ. You only got placed there when you had made it big. Your QPA was higher than 3.0 and someone in Co-op liked you.

Most of us were not so lucky and received a job at a bank or an investment firm in Boston. This meant living here during co-op and putting up with the NU bureaucracy for another three months of the year. It wasn't too bad though, at least we had spending money and we didn't miss out on campus events.

After the first co-op, the journey began in earnest. It was now a quest to get the best grades as well as the best co-op job evaluation. People started looking for the job they wanted to do instead of going with a big name. Experience was building and it seemed to be getting easier when Junior year hit.

What a fiasco. All our friends from high school were graduating from college and we started to get nervous along with them. They entered the "real world" when we were having spring midterms.

They said there were no jobs for anyone.

Mom wasn't so worried, but Dad couldn't help himself. They loved me, but not enough to support a 23-year-old dependent. Dad started around August with his questions. "Any offers yet?" "Isn't someone coming to the campus soon to give out jobs?" "You can make a bundle if you work in the Midwest, how about it?"

Well, I heard the speech every time I brought laundry home. A few of my friends had offers from their co-op companies so I decided to look around. The Career Placement office wasn't a wealth of knowledge. The classified always wanted someone with five years experience and a Master's degree.

The fall rolled by and I generally forgot about getting a job and concentrated on getting out of NU. It wasn't easy but I managed Policy, the hardest business course except Finance, and actually celebrated a quarter with an elective. I also worried my way through class wondering if I would screw up and have to wait until June of '89 to graduate. No big deal.

But soon it was Spring and we were almost out. Senior week and commencement were approaching. Oh, no! No job. B.S.'s were running to resume writing lessons, interviews and career placement looking for jobs. Finals were almost forgotten in the crush.

We dodged the bullet and most found jobs, at least for the summer. After that, who knows?

SEARS B. CONDIT AWARDS

These awards were established in 1940 through the generosity of Sears B. Condit. The income from the Sears B. Condit Fund is distributed annually to the top-ranking Northeastern seniors. In addition to an engrossed citation, Condit scholars receive a check for $300.

SEARS B. CONDIT AWARDS

CRIMINAL JUSTICE
NEWMAN
CRIMINOLOGY

Diane Meinholz

Life after Criminal Justice?

Remember when you first came to Northeastern and told your friends you were a "criminal justice" major and they all laughed. Well it's over and now you have the pleasure of telling the world you're a criminal justice major. Five years as a criminal justice major hasn't been all that bad, has it?

As freshmen, we were told by upperclassmen that criminal justice was easy. And we believed them . . . until we met Schubie. Schubie introduced us to law and the unique art of writing briefs. He taught us that no matter how much we wrote, it was never enough. We sweated through exam grades of 30 and 40 and thought of transferring to Arts and Sciences. Yet in the end, somehow it all worked out and we thanked God for allowing us to pass this one little course. Some of us vowed never to walk a tightrope again and signed up for Criminal Law with Wally.

As sophomores, we thought we had it made. We looked forward to class with Wally and wondered what to expect. Multiple-choice exams were now the norm, but, the exams weren't any easier. We could no longer complain of writer's cramp and we became experts at filling in little holes. We wrote brief after brief after brief . . . and the one we skipped would always be the one Wally would collect. Our only hope was taking easy electives such as "Basket Weaving 1101" and "Quad Sitting 2101" in our middler year.

In the third year, God created middlers. Although all of us were listed as middlers by the registrar, many of us called ourselves juniors to save embarrassment. We tried desperately to forget the third year ever existed by taking loads of electives. Freedom at last! "Spanish for Law Enforcement majors" was offered to those wishing to learn the Spanish words for gun, ammunition, death, murder, knife and witness. The only problem came when we transferred into Spanish 2 and found out that all the "other" majors had studied the words for food, love, and marriage instead. For those not interested in Spanish, "Forensic Lab" was offered. All of us had longed to play Quincy, M.E. and we finally got our chance. On the first day of class we had hopes of living on a boat in California, but, reality soon set in . . . we were shown an autopsy on tape. Those who remained after the shock, learned some very helpful tips on criminal investigation. Blood dripping, semen testing, and glass breaking were among the favorites.

Junior year brought the same choice of electives and the realization that five years may not be worth it. Co-op was getting to be boring and school work became unbearable. All of our friends were seniors and we waited for the year we would be too.

Finally, we are seniors. Senioritis came early for us this year and we longed to pop champagne bottles at the Boston Garden. Although we will miss the college, we probably won't miss the university. Looking back it wasn't all that bad, was it?

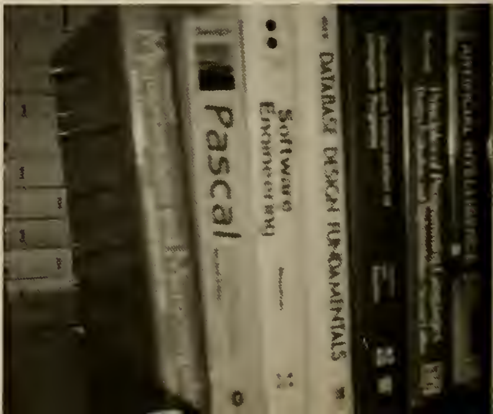
COLLEGE OF COMPUTER SCIENCE

Diane Meinholz



DATABASE DESIGN FUNDAMENTALS
Software Engineering
Pascal

Diane Meinholz

```
PROGRAM life (INPUT,OUTPUT);
TYPE person : set of (male,female);
.
.
PROCEDURE Northeastern (student:person);
var i : integer;
Begin
  For i := 1 to 11
    Begin
      Register (student);
        Pay Bursar (student); (externally defined procedures)
      Classes (student);
End;
Graduate := True;
End; (Northeastern)
.
.
End. (Life)
```

Looks kinda easy, doesn't it? That procedure only takes five years to run and ends up storing a lot of memories.

Random Access of Memory:

The Herd

Computer Science Majors at NU are herd animals. Five years ago we dropped in, thrust into a big city, and a big university. The first class was Pascal 1 with about twenty-five new freshmen; the second class Freshman Composition, the same twenty-five new freshmen. The third class, the same twenty-five new freshmen . . . the twenty-first class, the same . . .

The classes would end and the herd would form. Groups of five or ten and a few stragglers would migrate to the next class. It might have been easier to just change professors every now and then.

The first programming assignments . . .

The Corvus

AAAAAAAAAGGGGGGGGHHHHHHHHH!!!!!!!!

(I think that about covers everything.)

The Fish Bowl

Soon the simple assignments turned into projects. They grew slowly, imperceptibly, from a few hours a week, to a few days, then to the whole week, and finally to the monstrous size of several weeks. The fish bowl became our second home.

The glass enclosed room, where you could spend long sleepless nights working on projects that you put off too long or you could watch hundreds of people walk by while you programmed, or look up from your terminal and find yourself the subject of attention from a crowd of high school seniors with a tour guide, "This is our computer room . . ."

God

Then there was that special day. The day we had our first audience with God. We should count ourselves among the lucky; because we chose NU as our place for higher education, we actually got to meet God, although in his present incarnation he goes by the name of Melvin Simms. And he is a jealous God. Woe be it to the one who committed one sin, one transgression against him and incurred his wrath. The wrath we heard so much about at EVERY SINGLE COOP MEETING: fire, brimstone, locusts, floods, a little bit of foam from the side of his mouth, and of course . . . you'd probably be banished to hell, where there are not coop assignments!!!

Even though we are loaded with memories of
Good friends and good times,
Great Professors and ones that didn't quite speak
English,
All nighters with break for pizza and beer,
Long lines and many forms,
Coop checks and Tuition bills
I think there is room for two more memories in our NU
data base . . .
Champagne on the Quad and Graduation.
Have Great Lives,

Dan Sullivan

Engineering student Michael Richard Cox was born in 1965 and died in an automobile accident in August of 1987. He entered Northeastern in September of 1983 and was active in numerous community organizations in his hometown of Madison, Connecticut.

COLLEGE OF NURSING

Diane Meinholz

Diane Meinholz

Thru the years, we have survived such things as micro-biology and med/surg. We have endured psych classes and green uniforms. We managed to tolerate anatomy with Meszoely and physiology with Marsh. We even learned how to please our instructors with simple phrases:

Williamson — jello, dark green leafy vegetables
Chickie — back support
Waldon — I read the paper
Wilcox — electrolyte imbalance
Dearing — How do you feel about that?
Gilbert — relaxation techniques
Lynch — Did you ever . . .
Medici-scientific rationale
Marchessault — hutt, hutt, hoo — breathing patterns

We found ourselves standing at the T stop in the cold at 6:00 a.m., wondering if this clinical day would ever end. We had group projects and group presentations. We wrote scholastic papers and don't forget those delightful careplans! We heard hand washing techniques and "no question is a dumb question" — sure. We've studied, researched, monitored and even contemplated. We've calculated doses and administered concoctions. Now that we have mastered a new language: vs, cp, na, sq, IV and IM — We are BSN-RNs.

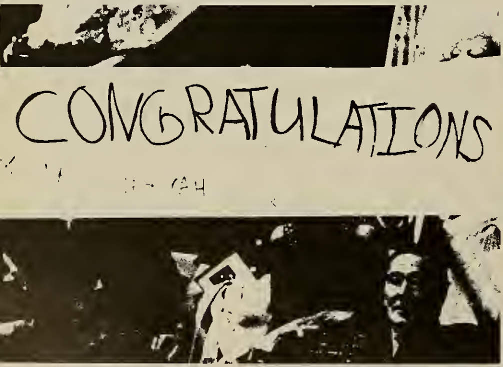
GOODBYE N.U.

On June 19, 1988, over 4,000 seniors wi graduate in the Boston Garden. We wi drink, celebrate, drink, celebrate, and drin some more. We will receive our diploma (hopefully) and throw our caps in the ai (along with our beach balls) and we wi remember all the good times: parties, partie and more parties. But, we will also remember the bad: lines, registration, lines, fina exam, lines, hangovers, and still more lines Goodbye Northeastern! We are glad it' over!



CONGRATULATIONS

Nancy and Lew Marino
Wilton, Connecticut

"Bone of my bones, flesh of my flesh . . ." Genesis 2:23 "Behold, this dreamer cometh . . ." Genesis 37:19

Kenneth and Henrietta Semedo
W. Wareham, Massachusetts

Querida hija eres nuestro orgullo quedios te vendiga. Papi y Mami

Mr. and Mrs. Oscar del Risco
Windsor, Connecticut

Dear Skip, We are so very proud of you. Congratulations on all you have achieved. Good Luck in Law School.

Love Your Family
Swampscott, Massachusetts

To Hank, We are very proud of you and we wish you the best always and our love.

Henry and Patricia Galligan
East Weymouth, Massachusetts

Cornhgairdeas Christina. We are proud of you and your accomplishments! May the best of everything life has to offer be yours. Good luck in nursing.

Mr. and Mrs. F. T. Deltufo
Dedham, Massachusetts

Congratulations Christine. We knew you could do it and we are proud of you. Good luck in Law school and all future endeavors.

Allan and Frances Spencer
Middletown, Connecticut

Congratulations Jane, from the gang — we are proud of you. Good luck in the future.

Mr. and Mrs. Roger Bush
Russell, Massachusetts

Congratulations Sandy Jo. Your hard work and determination has made us proud. We love you and look forward to your future success.

The Algeri's, Schwartz's and Mom
Newton, Massachusetts

Graduation Day is finally here. Rest assumed, it's very real. A special time and Deservedly so — Carla Melillo we love you so.

Mr. and Mrs. Gennaro Melillo
Malden, Massachusetts

"Miss Personality" We just want to say how proud we are of you and your determination but most of all to say we love you!

Mr. and Mrs. George Davis
Cambridge, Massachusetts

Congratulations to our daughter, Kristine Stevenish. This is just the beginning, success, love, and happiness. We are so proud of you.

Love Mom, Dad and Bobby
Chatham, New Jersey

Dear Chris We are so proud of you. God Bless.

The Demarest family
Keyport, New Jersey

Amazing! You made it! Congratulations Peter! We are proud of you. Mom, Dad and Bill

Mr. and Mrs. W. Somerville, Jr.
Chesire, Connecticut

Congratulations Maria! We always knew that your determination would pay off. We are very proud of you. We love you very much chatter box!

Mr. and Mrs. Peluso
Plymouth, Massachusetts

Congratulations Chrissy! We are extremely proud of you! God's Blessings be with you always. Love, Dad and Adele Southport, Connecticut

Adele and Peter Gandolfo
New York, New York

Congratulations Lynn. We are all so proud of your success. Good luck in Public Relations!

Mr. and Mrs. George Frazer
New Bedford, Massachusetts

Congratulations Lisa. As the baby of the clan, you followed through and made us so proud. God Bless and keep you "shining" always

Mrs. Mario Livorsi
Holbrook, Massachusetts

You made it son, hard work, dedication have made you reach your goal. Congratulations and Good Luck

Mr. and Mrs. Max Gouveia Jr.
Medford, Massachusetts

Congratulations Steve. I am so proud of you! The Army is getting the best engineer ever! Love, Mom.

Mrs. Andrews
West Hartford, Connecticut

Kenneth Siebenberg — Congratulations! A life filled with happiness and more success is on the way. Love Mom and Dad.

Sharon and Stanley Siebenberg
Holmdel, New Jersey

Joseph — May we share with congratulations and pride your achievement. But — only you — through your sacrifice and determination can enjoy the victory!

Mr. and Mrs. Alex Coviello
Wakefield, Massachusetts

Congratulations Piers. We are delighted and wish you all the best for the future.

Mr. and Mrs. Bowness
Weston, Massachusetts

Congratulations Kim! We are very proud of you and all your hard work and determination. Our love and Best wishes for continued success and

happiness.

Mr. and Mrs. Francis DiCorleto
South Windsor, Connecticut

Congratulations Tracy. We hope that all your dreams and wishes come true. We are proud of you.

Mr. and Mrs. Carino
Crawford, New Jersey

Congratulations Ed. We knew you would make it. May you and your co-graduates find success — happiness — peace of mind in all of your endeavors.

Ann and Ed Murphy
Tallman, New York

Roses are red
Violets are blue
Congratulations, Scot
You made it through!
With pride and love
Mom, Dad, Rhonda, Sheri, Brandi and Leo

Mr. and Mrs. Rittenberg
Burlington, Massachusetts

Congratulations Patrick. The entire family is very proud of you. The mechanical engineering profession may never be the same. The best of everything to you.

Love Mom and Dad
Stratford, Connecticut

Congratulations Paul, on a job well done! We are very proud of you. Good luck in your career.

Mr. and Mrs. Paul F. Tibbetts
Westwood, Massachusetts

Congratulations, Jim — We are so proud of you. Love you! Dad, Mom, Georgie, Billy, Chris, Nona and Sharon

Mr. and Mrs. George Costigan
East Boston, Massachusetts

Congratulations Jim. We knew you could do it! Mom, Dad, Pam, Dave, and Jeff

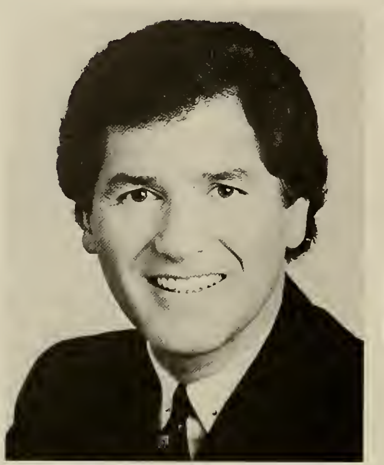
Dr. and Mrs. Joseph Bellino
East Greenwich, Rhode Island

D. Kelly Healy

Life After Northeastern?



ERNEST P. ANASTOS

Reporter and Anchorman
University College — 1978

"Eyewitness News" WABC-TV New York

A very respected member of the broadcast community.

In 1977 he was awarded with the Alumni Association's Professional Promise award.

After a tour of duty with the U.S. Army Reserve and Armed Forces radio network, he worked as a free-lance journalist with WCBS-TV, New York, RKO Radio and RKO-TV, Boston, and RKO radio in Chicago. He has been recognized as an outstanding reporter and cited for his innovative and insightful on-the-spot reporting. He received an Emmy Award in 1985, and was named Anchorman-of-the-Year by the New York Institute of Technology. He has co-authored a book TWIXT: Teens Yesterday and Today with NU sociologist Jack Levin. Mr. Anastos is a member of the National Council, the Husky Associates and Sigma Epsilon Rho Honor Society at NU among other professional organizations. He received an honorary Doctorate of Humane Letters from Curry College in 1985.

JEANNE E. CRAIGIE

Certified Athletic Trainer
Boston Bouve — 1974

First Athletic Training Student to go through the BB program.

First Woman Athletic Trainer to be hired at Lane Health Center where she worked for seven years.

President of the Boston Bouve Alumni Association June 81-June 83.

1969 Outstanding Team Sport Athlete

Site Trainer in the 1973 World Games Women's Basketball Tournament

1974 Woman of the Year at Northeastern

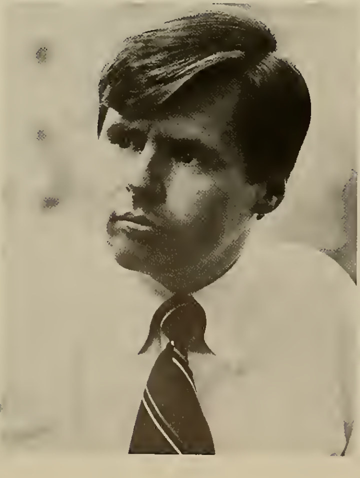
1974 Boston Bouve Service Award Winner

Team Trainer for the 1976 New England Lacrosse Team

1983 Boston Bouve Alumni Association Citation Recipient

Head Athletic Trainer for Stoneham High School for several years.

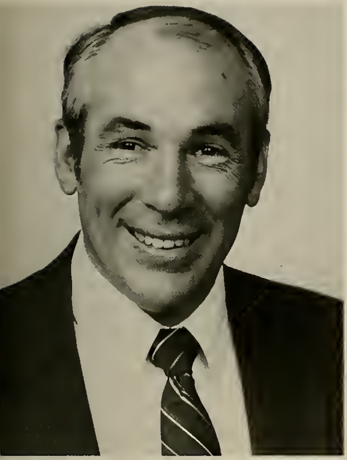
Mrs. Craigie has been very active in Alumni and Volunteer activities at NU. She and her husband Paul have two children, Adam and Benjamin. She is currently working as a Pre-School Educator so that she can spend time with her family and continue her volunteer services to NU.



WILLIAM GEARY

Commissioner, Metropolitan District
MA 1972

He has been commissioner since 1983. As commissioner he is responsible for one of the largest government agencies in the United States. He has served as a Senior Advisor to Governor Dukakis, and also as a Consultant to the White House during the Carter Administration. Since 1976 he has been teaching at the Suffolk University Graduate School of Administration, and has been a visiting lecturer at many Universities including Northeastern, Harvard's Kennedy School of Government, and Boston State College. Geary and his wife, Mary Ellen, have four children — Sean, Robert, Thomas, and James.



GREGORY B. JARVIS

Payload Specialist
Hughes Aircraft Company
ME 1969

While at NU Jarvis worked at Raytheon Company in Bedford. After graduating he entered active duty in the Air Force, assigned to the Space Division. As a communications payload Engineer in the Satellite Communications program office he worked on advanced tactical communication satellites. He was honorable discharged from the Air Force in 1973 with the rank of Captain. He later joined Hughes Aircraft Co.'s Space and Communication Groups. He was selected as a Payload Specialist Candidate for the Shuttle program by Hughes Communications in July 1984. His mission was to conduct an experiment to help understand how fluids move in an orbiting spacecraft.

Greg Jarvis was one of the seven Americans who died in the Space Shuttle Challenger Explosion. The graduating class of 1986 established a scholarship fund in Jarvis' memory. The award will be given to that Senior who has made an outstanding contribution to Student Life through participation in extracurricular activities.

NANCY RIDLEY

Director, Division of Food & Drugs
Massachusetts Department of Public Health
LA 1967, MP 1974

Ms. Ridley has been the Director of the Division of Food & Drug since 1981. She is a member of the Association of Food & Drug Officials, New England Food & Drug Officials Association, American Association for Clinical Chemistry, Massachusetts Health Officers Association, among many others. She has also written many publications and abstracts.

Committee Meeting

THE ULTIMATE SENIOR SURVEY

Naturally, the survey's methodology was suspect, but the yearbook staff felt it should be representative of a senior class where everything is a little off center. We asked all the seniors getting their photos taken (about half of the total) to fill out the forms and only about 50 did, so you're looking at a response of 50 out of 4,100. But who's to say Gallup would have got a better sampling, anyway.

The following is a highlight of the best answers to the questions.

1) What is the one thing you would leave to Northeastern? "A false forwarding address."

2) What has been your worst experience at Northeastern? "All of them."

3) Are you a virgin? 80 percent said no.

4) Where did you lose it? "110 St. Stephens." "Stetson West." "Spring Break, Fort Lauderdale." "Speare Hall, Rm. 248." "17 Symphony Rd." "The floor of Punters Pub." "Roof of White Hall." "In an '83 Plymouth Turismo." "201 Botolph" "In the Freshman Registration Line."

5) Who is Ken Ryder? "Some guy who told us we'd be gone in three years. Then he disappeared."

6) How many times have you been to the Dodge Library? The answers ranged from "none" to "1,345."

7) How many times have you found what you were looking for at Dodge Library? The answers ranged from "none" to "zero." One student said "every time, I only go there to sleep."

8) How many fake IDs have you used while at NU? The answers ranged from "none" to "seven." The average was three.

9) What was the first bar you went to when you came to NU? The most popular answer was "The Cask."

10) What bar have you gone to the most? "The Cask" and "Who's On First" were the most named.

11) How many times a month do you go out drinking? The answers ranged from "none" to "31." The average answer was 3.5

12) How many years have you been at NU? Sure, it was a trick question. Most students said "five," but some caught the meaning and gave the correct answer "too many."

Thirty percent of the Class of 1988 think Ken Ryder is the president of Ryder Rent A Truck, according to the Ultimate Survey of the Class of 1988.

RYDER
RENT
ONE WAY
& LOCAL

13) How many times have you changed your major? The average was twice.

14) How many times have you changed your division? The average was three times.

15) How many teachers have you had that did not speak English? The average was four.

16) How many hours have you spent waiting in lines at Northeastern? "I'm still waiting."

17) What was the first drink you got sick on at Northeastern? "The White Hall water."

18) How many times have you visited the Lane Health Center? The average was five.

19) How many times have you been told to come back the next day? Gee, the average was also five.

20) How many months have you lived in University Housing? The average was nine, but the most common answer was "too many."

21) How many roommates have you had? The average answer was three, but the best response was "exactly what do you mean by the word 'had'?"

22) How many different co-op jobs have you had. The average was three.

23) What was the worst co-op job you have had? "Children's Hospital in Boston, the administrators believed in mandatory birth control."

24) How many times have you moved since coming to NU? The average was 3.5. One student claimed to have moved 15 times.

25) How many times have you been billed wrongly? The average was six, but the norm was "all of them."

26) What was your least favorite place at NU? "The quad." "Cafeteria." "Dodge Library." "The Ell Center Men's rooms." "The bursar's and the registrar's because they always blame each other and make you climb all those stairs." "Financial Aid." "I can't pick, it's all so horrible." "135 Mugar." "The co-op department." "150 Forsyth." "Punters." "Club Swill." "The Bursar's, need you ask?"

Colophon

Volume 68 of Northeastern University's CAULDRON was printed by Taylor Publishing Company in Dallas, Texas. All printing was done using the offset lithography process from layouts prepared by the Cauldron staff.

Paper stock for the first 16 pages is 80 pound Mead enamel with the remainder of the pages printed on 80 pound Mead matte. Endsheet stock is 10 point coated Frankcote cover.

The cover is black Lexotone 075 turned over 150 point Davey binders board. The design is embossed with a caracul grain and a face grain. Two silkscreen inks, red 804 and white 911 have been applied to the cover.

Senior photographers were processed by Varden Studios of Rochester, New York.

Although a variety of typefaces were used in the book, the basic body face is Times Roman. Headline type is 30/36 Times Roman Bold with body type 10/12 Times Roman and cutlines 8/10 Times Roman.

The 1988 CAULDRON had a press run of 2,500 copies which were distributed to the graduating seniors.
